THE LAKE SIDE

Dead Premier's Body Laid to Rest on the Shore of Lake Ontario.

It Lies in the Cemetery in His Native City Beside the Bodies of His Relatives.

The Mourning Ceremonies in Kingston and the Dominion During the Interment.

Kingston, Ont., June 11.—Beneath a new made mound in Cattergill cemetery in a beautiful little valley with its velvet fields and peaceful farm houses, and washed by the waters of blue Ontario were placed today all that is earthly of the late Sir John Macdonald. With almost royal honors and amid the mourning of a nation, the body of the dead premier was born to its last resting place. On all the public buildings and on many business houses, the national colors floated at half-mast. Down the principal streets of the city, the people were draped in mourning and in many of the windows were portraits of the dead premier draped in black. The city buildings, in which the remains lay in state, were magnificently draped. An immense throng of people passed into the hall, viewing the remains, and then emerged from the rear. An enormous crowd of people poured into the city from the surrounding country this morning. An early train from Ottawa brought the members of the senate and house of commons, the governor general and staff and others who were to take part in the funeral. The cortege moved at noon. The various civic and military bodies quickly fell into line and to the booming of cannon from Fort Henry and the solemn toll of the city and church bells the march to the grave began. The column consisted of civic societies, police, cavalry and artillery, horse with body guard of eadets, mourners, governor general and staff, army and navy, provincial governors, bishops, cabinet, judiciary, legislature, provincial assemblies, consuls, deputy ministers, deputations from other cities and citizens generally. The cortege passed along Ontario street to Princess street and up the thoroughfare to Cattergill cemetery, a distance of over three miles. Arriving at the cemetery, the remains were taken in charge by the Masonic fraternity and interred with Masonic honors.

The plot in which lie the remains is on a terrace on a hillside. The dead premier was laid beneath the plain Scotch granite shaft on which the single word "Macdonald" stands out in relief. The plot contains five other graves: those of Sir John's parents and sister and his wife and son. A more beautiful spot for the repose of the illustrious dead could hardly have been chosen. In front is Lake Ontario, to the left the spires of Kingston, Sir John's native place. The air and all around is a typical picture of Canadian life.

The day was also observed as a day of mourning throughout the dominion and during the progress of the funeral bells were tolled in every city and town of the empire. A movement is taking definite shape for a national monument to the dead statesman to be erected by popular subscription.

Failure in New Orleans.
New Orleans, June 11.—Henry and Gardes, limited, one of the largest hardware firms in this city, have gone into liquidation. Proceedings were filed in court this morning and a receiver appointed. Most of the indebtedness is in the Northwest. The dull season and the stringency in the money market are given as the cause of the suspension.

Killed by a Crank.
WILMINGTON, N. C., June 11.—Benjamin Matthews, aged 24, of Brooklyn, was shot and instantly killed here yesterday by R. H. Trask. Trask is undoubtedly insane. Matthews was walking alone in the street and shot him dead. Matthews is a married man. His wife and two small children were with him. Mrs. Matthews's grief, when informed of the murder of her husband, was terrible to behold.

The Santa Fe's Tracks.
KANSAS CITY, June 11.—For two days the Santa Fe railroad has been hiring scores of men and hauling many trains loads of stone to Parelli to try and keep their tracks in place. The high water having washed away a quarter of a mile of track and undermined much more. Today they took down fifteen hundred sacks, filled them with sand and piled them along the sides of the track.

Mullen and the Militia.
ST. PAUL, June 11.—The trouble between Adj. Gen. Mullen and the officers of the Third regiment, state militia, culminated today in the mustering out of the regiment by the former upon the request of Governor Merriam. Several of the companies are directed to join the First or Second regiment, while three or four are directed to report to general headquarters.

A Young Wife Killed.
BALTIMORE, June 11.—Mrs. Stuart Kearney, the young wife of the private secretary to President Brooks of the Canton company, was shot and killed while getting some linen from a bureau drawer on Tuesday night. The pistol was lying in the drawer and the theory is that the woman became entangled in the clothes and was discharged. She was 24 years old and had one child.

A Steamer in the Mud.
New York, June 11.—The steamer Wm. V. Wilson went out yesterday on the Haritan flats, where she still lies. The vessel, which is loaded with passengers and freight, was on her way to Port Monmouth when she struck. The vessel will probably be floated without injury at high tide today.

Today's Fires.
BOSTON, June 11.—Fire last night caused \$20,000 damage to the furniture factory and contents of Silvio & Sons; fully insured.

Haverhill, Mass.—The lumber yard of Chase & Co. was damaged to the extent of \$15,000 by fire at midnight last night. Adjoining property was damaged \$500 by the flames.

A BIG STEAL.

The Clever Way New York Robbers Walked Off With Their Booty.

New York, June 11.—The mammoth dry goods and miscellaneous establishment of Hiltion, Hughes & Denning, which occupies the entire block bounded by Fourth avenue, Broadway, Ninth and Tenth streets, was robbed last Friday night in the cleverest style that has distinguished a burglary in New York for many years, and so far not a clue has been obtained by the police as to the identity of the robbers. The thieves' plan for their operation was exceedingly clever. They concealed themselves in the store some time during Friday and had themselves locked in the building. The firm employs watchmen, but they are all stationed outside. The robbers easily forced the safe and secured the booty, but now all their ingenuity had to be put to work to get out. As the lower floor was encased in shutters of steel and as there were four watchmen on the outside, placed so they could see every inch of his side of the building, this was no easy matter, but the burglars surmounted this difficulty by a simple plan. They started a fire in that part of the basement which extends under the sidewalk and then hid up near the door and awaited developments. The heat quickly broke the glass, allowing the smoke to escape into the street. The smoke, of course, attracted the attention of the watchmen, who after sending in an alarm, opened a little door in the steel shutter covering the Fourth avenue entrance and the robbers slipped out and into the basement with the heroic idea of extinguishing the flames. This all happened as the robbers had foreseen, and they quickly snuffed themselves of this means of exit and escaped with their booty untroubled. The fire was quickly extinguished by the firemen upon their arrival and the building locked up. The robbery was discovered next morning, and the police are still hunting for the robbers. The robbers secured money and valuables to the value of at least \$100,000.

GRAY'S AMBITION.

The Indiana Politician Nursing a Desire for the Vice-Presidency.

CHICAGO, June 11.—The secret visit paid to this city last week by ex-Governor Gray of Indiana, and the fact that while here he was in conference with several prominent democrats, creates a good deal of speculation in political circles. Those with whom he conferred are men and in the manner that a solemn indictment was placed upon them to say nothing of the object of the visit. It is known, however, that the noted Indiana politician is pulling a great many wires, and that he is endeavoring to secure the nomination of the next democratic national convention, when he proposes to come to the front as a candidate for the vice-presidential nomination. Should President Harrison be re-nominated, there is nothing that Gray would enjoy better than to contest with him in his own state. One of those whom he met at his recent visit is authority for the statement that the old feud with Senator McDonald has been covered, and that if Gray forges to the front "Old Saddle-bags" and his following will fall in under the ex-governor's banner. Gray himself believes that should Indiana be given a place on the next Presidential ticket, it might be counted for the democratic column just as surely as any one of the Southern states.

IMPORTANT MEETING.

Dancing Masters Meet to Try New Figures and Make Rules.

PROVIDENCE, R. I., June 11.—Some 400 men of distinguished appearance and Chesterfieldia airs have been holding daily sessions here for the past two days. They come from all parts of the country and are members of the National Association of Dancing Masters, for the purpose of making rules for the dance for the United States and Canada. There are five Canadians in the convention and nearly every state is represented. Last night there was an exhibition of several new dances, which it is proposed to commend to the attention of fashionable society during the coming season. A committee has been appointed to report upon the desirability of adopting a uniform code of dancing rules by which Americans visiting abroad and foreigners coming to this country will be able to take part in the social festivities at short notice, even if they have been hitherto unfamiliar with the particular dances to be indulged in. The place of the next convention has not yet been decided upon, but several delegates are urging that it be held in London.

A Belle's Marriage.

FAIRFIELD, CONN., June 11.—The wedding of Miss Louise Delaplaine Rowland, one of the loveliest belles of New York, and a linen dealer, was celebrated here yesterday by Jonathan Edwards, the once eminent son of New England, and Arthur Whiting Tappan, one of the leading dry goods merchants of New York and a well known philanthropist, was solemnized here today at the summer residence of the bride's parents. Nearly 1000 guests were present, 400 of whom came from New York on a special train. The presents were numerous and magnificent.

International Missionaries.

CLIFTON SPRINGS, N. Y., June 11.—At the session of the International Missionary union last evening Dr. Henry Foster welcomed the delegates and Vice President Hamilton of Lexington, Ky., responded. The Rev. Dr. T. Nevins, American president of the Shanghai conference, delivered a short address on "Missionary Work in China Tong."

Chancellor Ingalls.

ST. LOUIS, June 11.—It is said ex-Senator Ingalls has been tendered the chancellorship of Washington university, this city. A friend of the young man recently offered to donate \$100,000 if a chancellor was secured, and it is believed the Kansas statesman will accept.

A Bookkeeper Goes Wrong.

NEW YORK, June 11.—Van, H. Forest, bookkeeper in the office of the Charitable Association, was charged yesterday with embezzlement and was sent to the Elmira reformatory. It is thought the young man stole more than \$30,000 from the firm. He admits having taken \$10,000. His stealings have been going on for over eighteen months.

Rejects the Appropriation Bill.

REVEREND, June 11.—Governor Harvey yesterday issued his proclamation declaring the laws passed by the legislature to be in force, but made a special exception of the appropriation bill, claiming that this act was never presented for his approval.

WANTS TO QUASH.

Clements' Attorney Makes a Motion to Quash the Indictment Against the Captain.

He Holds That the Facts Charged Do Not Constitute a Public Offense.

A Suit Brought for the Recovery of a Big Sum for Real Estate.

Attorney d'Astremont, counsel for ex-Police Captain Clements, charged with extortion, is arguing demurrers to the three indictments this afternoon before Judge Ensing. The demurrers, in asking for the quashing of the indictments, contain the following:

"The said Frank Clements in his own proper person cometh into court here, and having heard the said indictment read, demurs to the same and says that the said indictment and the matters therein contained in the time and manner of the same are therein stated and set forth do not constitute a public offense and that acts, facts and circumstances necessary to constitute the alleged offense, to wit, extortion, or any other public offense, are not therein stated and set forth by law and are not sufficient in law; and that he, the said Frank Clements, is not bound by the law to answer the same; and this he is ready to verify."

In Judge Ensing's court the case of the St. Paul Trust company vs. Scott & Holston is still tried. No. 115 and 116 were ordered placed on the court calendar.

In Judge Stearns' room a verdict for the plaintiff was returned in E. C. Gray et al. vs. S. B. Clark et al. and certain appeals replevined. A verdict for the defendant was given in the case of C. A. Bachelor. The suit of John L. Henry vs. Robert W. Smalley, to recover \$1000 for alleged wrongful and malicious arrest, is on trial.

A note of issue has been filed in the divorce suit of Mary Pyke vs. John Pyke. John Pyke, husband of the plaintiff, has brought suit against J. Mendenhall for \$38,225. The complaint alleges that on July 1, 1890, the defendant as administrator for the estate of Gustave Nyberg, deceased, came into possession of two deeds from the heirs of the estate conveying their interest to the plaintiff and that he has continued to wrongfully withhold the deeds from the plaintiff, in spite of repeated requests for them. It is further alleged that Mendenhall, as administrator, entered into a contract to sell to Charles R. Haines the self of 4-8-11 and that the contract was subscribed to on the part of the plaintiff as grantors by the firm of Mendenhall & Hoopes as alleged agents of plaintiffs, and that he had no authority so to do; that later the plaintiff, Julia M. Benson, sold the property for \$48,000 less than its value, impelled by threats made by Mendenhall.

BASEBALL DESERTERS.

Pitcher Duke and Shortstop Shugart Desert the Minneapolis Team.

MINNEAPOLIS, June 11.—The American association games now in this city have succeeded in getting Duke, pitcher, and Shugart, shortstop of the Minneapolis team, and Vickery, pitcher, and Grim, catcher of the Milwaukee team, to sign with the Baltimore association team. The Western magnates will make a determined fight against the move.

Several Soldiers Indicted.

WALLA WALLA, Wash., June 11.—A report has been made to the superior court by the grand jury which has resulted in the indicting of A. J. Hunt by United States soldiers. A true bill was found against only seven enlisted men in the Fourth United States cavalry, although the jury was satisfied that there were a number of others equally guilty. This belief was supported by sufficient evidence to indict. The jury believed that precaution would have prevented the outrage, and that the sheriff was taken by surprise. The letter, however, should have given a general alarm. It is recommended that the troops at Walla Walla be exchanged with some other in view of the present feeling against them.

The Whisky Trust.

CHICAGO, June 11.—Rumors indicate that the whisky trust may not have such a monopoly as it thinks it has. Wholesale liquor dealers and retailers are forming a combination to build a distillery of their own that will be the largest in the world and enable them to make their own whisky at their own price. There will be no difficulty in raising the money, as the individual tax on each distiller or dealer will amount to something less than \$5000. All the preparations for this anti-trust move are being made in the quiet, and it is with great reluctance that the whisky men acknowledge they are in sympathy with it, as they fear the antagonism of the all-powerful trust.

A Maiden's Cheek.

IRONWOOD, June 11.—Marie Boulogie, of this place, stole a piece of goods from Davis' store last week, and Tuesday found she did not want that particular piece and asked the clerks to change it. She police found over \$2000 worth of stolen goods in her house. She admits running a store in Hurley for the sale of her plunder. She also admits stealing \$1000 worth of goods in Cincinnati last summer and twice as much from Chicago.

Girl Pleased to Wear a Pigtail.

NEW YORK, June 11.—A Washington special to The Herald says it is reported that President Harrison has decided to send ex-Governor and ex-Senator Gilbert A. Pierce of North Dakota, as our representative to the Paris conference. Mr. Pierce is an editorial writer on the Minneapolis Tribune. The appointment of Governor Pierce will likely be followed by the appointment of ex-Senator Blair as minister to Japan.

Court House Burned.

PIERRE, S. D., June 11.—The court house of Stanley county and two smaller frame buildings were consumed by fire at 11 o'clock yesterday, including the county records. Loss, about \$50,000; partly insured.

CONDEMN THE PRINCE.

Great Excitement Over Wales and the Baccarat Case.

LONDON, June 11.—The Christian World, a religious weekly, representing all denominations of protestants, says of the prince of Wales in connection with the baccarat scandal: "The throne rests upon the foundation of public opinion only. A few more scandals like that of Traubay Crad will destroy this foundation and Edward VIII would never be crowned."

The British Weekly says: "The revelations are enough to sober up the strongest supporters of the monarchy."

The correspondent of the Times at Vienna says that the baccarat scandal has caused a sensation in array circles on the continent, especially in countries where the prince of Wales holds honorary military rank. The correspondent directs attention to the fact that in Austrian general, who was found to have condoned in a similar manner to that adopted by the prince of Wales' acts of cheating upon the part of one of his subordinates officers, was compelled to resign from the army to avoid being tried by court-martial.

The Liberal Radical society of Scotland has forwarded to the prince of Wales a resolution adopted by the society condemning his action with the baccarat case and demanding that he resign his army commission.

Sir William Will Talk.
New York, June 11.—Sir William Gordon Cumming has decided, says a letter from an acquaintance of the baronet in London, to a gentleman in this city, to relate at length his own version of the Traubaycroft baccarat scandal in a small volume, which he proposes to bring out at a very early date. In his book he will deal particularly with what he has termed the "tracery" of Lyceet (green); the manner in which the prince of Wales keeps secrets; his candid opinion of the hostess of Traubaycroft; the true and only reason why he was called upon to sign "that document;" how the prince of Wales plays the role of banker; why he carries his own baccarat apparatus about with him; the nonsense that occurred among the party on both nights of the play; and last, but not least, Lady Brooke's reason for breaking her promise to the prince of Wales that she would not utter a single word about the affair to a living being.

An Ecclesiastic Gone.

ROME, June 11.—The distinguished Italian ecclesiastic, Rev. Father Curie, died today. He was born in 1800, and was a foremost and eloquent pulpit orator of the society of Jesus. Father Curie founded the civil catholics. In 1857 he was expelled from the society of Jesus on opinions expressed by him with regard to the temporal power of the pope. Later he returned, and he has for years past been engaged on a translation of the Old Testament with the formal approval of ecclesiastical authorities.

Rioting at Bremen.

BREMEN, June 11.—The striking firemen of the North German Lloyd Steamship company this morning engaged in rioting and were promptly attacked by the police with swords. A desperate struggle ensued and the police were so badly pressed by the strikers that it was found necessary to call the fire brigade to their assistance, and that he had no authority so to do; that later the plaintiff, Julia M. Benson, sold the property for \$48,000 less than its value, impelled by threats made by Mendenhall.

Excitement in Mozambique.

LOVON, June 11.—Mozambique dispatches report great excitement as prevailing there owing to the fact that Chief Govein with 4000 followers has rebelled against the authority of Portugal, and in favor of the establishment of a British protectorate. The chief rules over the territory situated between the Zambezi and the Pungwe rivers. Portuguese troops have been sent to suppress the rebellion.

Anti-Baccarat Crusade.

NORTHAMPTON, June 11.—The anti-baccarat crusade has evidently begun and will probably extend rapidly all over the kingdom. The landlord of the Albert hotel was arrested and fined \$10 today, and his license was revoked for keeping his house open after regulation hours and permitting the obnoxious baccarat to be played therein. Five others who were indulging in this game so much loved of the prince of Wales were fined \$1 each.

The Prince Must Explain.

LONDON, June 11.—It is said that the queen is so deeply stirred up over the baccarat revelations that she has directed the prince of Wales to make an early personal explanation of his conduct, and that some of the prince's associates in the game may be made to feel the royal displeasure. The secretary of state for war has been overwhelmed with letters demanding that action be taken against the implicated officers.

Guilty as an Accomplice.

LOVON, June 11.—The jubran or regent of Manipur has been found guilty of responsibility for the murders of Grimwood, Quinton and the others, the secretaries of the government. The jubran, it appears from the evidence, did not actually participate in the massacre, as did the secretary, but he was in the palace at the time and might have prevented it.

Hurrying Hitherward.

BERLIN, June 11.—By orders of the authorities no more of the refugee Russian Jews are permitted to enter Berlin, and their passage through Germany is hastened as much as possible, very few being allowed to wait in Charlottenburg beyond the intervals between trains. The majority of the refugees are on their way to the United States.

A Great Day for Boys.

LOVON, June 11.—A Constantinople dispatch says that the Sultan has been celebrating with great eclat the circumcisions of his three youngest sons, 5000 poor children undergoing the ceremony at the same time, at the Sultan's expense. The city has been illuminated and rejoicing generally over the sacred occasion.

Will Die of Baccarat.

LONDON, June 11.—The wife of Warwick, father of Lord Brooke, whose wife, Lady Brooke, has been prominently mentioned in connection with the baccarat scandal, is in a critical condition of health, and his son is at Warwick castle attending him.

The Prince Replevied.

VIENNA, June 11.—The Austrian heir apparent, the archduke Franz, is recovering from a severe attack of illness, which has caused great anxiety to the imperial family.

Ratified the Convention.

LISSON, June 11.—Yesterday the senate by a vote of 83 to 6, ratified the Anglo-Portuguese convention, which will be at once vigorously enforced.

OVER THE BIG DEEP

First Clearance Papers From Duluth for Liverpool Taken Out at the Custom House.

The New Steamer Wetmore Loads Wheat and Starts for a Long Ocean Voyage.

She Will Demonstrate the Availability of Whalebacks for the Trans-Atlantic Trade.

The steamer Wetmore, launched from the American Steel Barge company's yards a couple of weeks ago, made a trial trip a few miles out in the lake yesterday afternoon, passing through the canal. Everything proved most satisfactory. Today she is loading 70,000 bushels of wheat for Barnes & Thomson, and will probably depart before evening. She will take out clearance papers at this port for Liverpool, but will be compelled to unload the greater part of her cargo at Buffalo in order to accommodate her draft to the Canadian canals and the rapids of the St. Lawrence river.

Marine Notes.

The Ranney, Lockwood and Iosa took 2270 tons of Minnesota ore from Two Harbors yesterday. The Mariska is in loading with Chandler ore.

The schooner Teutonia has been loaded with lumber for Tonawanda. She will probably go tonight or tomorrow in tow of the Geo. Williams.

Sault Passages.

SAULT STE. MARIE, June 11.—[Special to The Herald.]—Down yesterday: James Pickands, S. R. Kirby, 2:15 p. m.; Alberta, Toledo, 3:15; George T. Hope, 4 a. m.; City of Duluth, 4:45; Colonel Grand, 5:45; land, 7:15; Horace A. Tuttle, 8:15; Robert L. Fryer, 9.

Today: Pontiac, 6:25; Majestic, 7 p. m.; Massey, 0:45; Phillip Minch, 11; Norwalk, 12 noon.

Up yesterday: Celtic, 3:25 p. m.; John Harper, 5:30; Sault Ste. Marie, 5:30; T. day: Vienna, 3:45 a. m.; Manola, 5:30; Tacoma, 8:30; Woonken, Pelican, 10:35 a. m.

Clear, brisk, northwest wind.

Prop. Iron King, Ashland, for ore.

PRESIDENT TO MAYOR.

The President's Letter on the Philadelphia Bank Matter.

PHILADELPHIA, June 11.—The following is President Harrison's letter to Mayor Stuart:

Stuart, June 11.—I am in receipt of your letter of June 1 and in reply thereto say: The controller of the currency is, under the law, in immediate and in a large sense independent control of all matters pertaining to national banks. Everything relating to the examination of such banks, to the appointment of receivers and to the winding up of insolvent banks is under his direction. An examination of the relation of his office to the Keystone National bank will, therefore, disclose all that has been done by the treasury department. The secretary of the treasury was absent when your letter was received, but upon his return this morning I conferred with him and the controller, and, as a result of that conference the controller stated that he would prepare at once a full statement of his entire action in connection with the Keystone bank. Very truly yours, BENJAMIN HARRISON.

FOR STAR GAZERS.

Dedication of the New Astronomical Observatory of Carlton College.

NORTHFIELD, MINN., June 11.—This was a gala day for Northfield. It was commencement day for Carlton college and the regular commencement program was carried out. A class of thirteen graduated, eight of whom were ladies. The most interesting and important event of the day, however, was the dedication of the new observatory of the college. This observatory has two domes, which are respectively 17 and 30 feet in diameter. The structure is 78 feet east and 100 feet north and south. It has a meridian circle made in Hamburg. This instrument has a focal length of 58 inches. This circle was presented to Carlton by J. J. Hill, of the Great Northern railway and cost \$5000. Two Howard clocks and a Bond chronometer are part of the equipment. In the north middle room is a 3-inch transit and in the small dome an 8 1/2 Clark equatorial. The new instrument is a 16-inch equatorial and is provided with a fine large universal spectroscopic which has a photograph attachment for recording spectra. The object glass was made from Dr. Hastings' new formula, which promises a defining power of great extension. There is an astronomical library of 1750 volumes and 400 useful pamphlets. The observatory receives all telegraph announcements of new astronomical discoveries from Harvard through the courtesy of Professor Pickering.

Comptroller Lacey and the Keystone.

WASHINGTON, June 11.—Comptroller Lacey completed his statement of the connection of his office with the closing of the Keystone National bank of Philadelphia today, and handed it to Secretary Foster for his information. The statement is very elaborate and contains all the correspondence that has passed between Comptroller Lacey and Examiner Drew. Mr. Lacey takes the ground that the office of the comptroller of the currency can only be investigated by congress or by United States officials, and that it would be manifestly improper that its business should be subject to an examination by any municipality that desired to inspect it.

Prayer meeting at congregational church will be held at 7:30 this evening instead of 8 o'clock.

Bargains in Real Estate

Sixteen room house on Fourth street at Third Avenue east; new and with all modern improvements; worth \$10,000, price \$8,500.

North East quarter of South-West quarter, Section 11-48-13; worth \$14,000. Easy terms; price \$12,000.

An executive session of the common council will be held tomorrow night, at which the ordinance to be printed with the new charter will be revised to suit the present exigencies.

The Saturday club is being given a lecture this afternoon at the residence of Mrs. O. H. Simonds by Miss Carolina Chaffee of St. Louis. The subject pertains to art.

Clan Stewart last night elected Clarence James Dingwall as delegate to the Buffalo convention, vice Chief Wilson, resigned. He will be accompanied by Royal Tunkist Clark. They leave on Saturday.

Plans for the recently surveyed townships of 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, are expected to arrive from Washington in a few days and the lands thrown open for filings, as word has been received here that the plats are made and approved by the department.

Capt. Mike Chalk, the sub-aqua mariner had a close call yesterday. While diving in the bay his air tube became detached from his rubber armor, and when brought to the surface he was insensible, but soon recovered his amphibious habits.

Mrs. W. D. Tomlin, who has been ill for some time, has entirely lost the use of one eye and the other is badly affected. She will go with Mr. Tomlin tonight to Minneapolis, where an operation will be performed by which it is hoped the second eye will be saved.

Grand Rapids on Tuesday voted almost unanimously for incorporation and will now have municipal offices to fill. Some time ago it was thought La Prairie was the coming town, which was not altogether untrue as she is coming over to Grand Rapids about as fast as she can.

A meeting of the First Presbyterian furnishing society was held yesterday, with Mrs. Geo. Spencer and the following officers elected: President, Mrs. John Fraser; vice, Mrs. Franklin; secretary, Mrs. Edw. Chandler; directors, Mrs. Neil MacLachlan and Mrs. W. T. Bailey.

We buy notes and short time paper also purchase money mortgages. Clark & Crossley, 402 Palladio building.

Good three, five and ten year mortgage loans wanted.

T. O. BALL.

WILL HE GET IT?

A Washington Dispatch Says Nichols Will be Appointed Soon.

The Minneapolis Journal of yesterday had a telegram from its Washington correspondent, J. S. Van Antwerp that looked very rosy for Monroe Nichols' candidacy for the land office. The telegram was as follows:

Monroe Nichols will succeed Col. Colville as register of the Duluth land office. There is little doubt on this point now. The only possible cause of his defeat is that Senator Davis may not be able to satisfy President Harrison that the charges against him are untrue. There is no reason to doubt, however, but that Davis will make an explanation that is entirely satisfactory to the President. Congressman Comstock has joined with Davis, it is said in recommending Nichols, and Senator Washburn has not and will not make any recommendation. Nichols is sure of the prize. The matter will be laid before the President by Acting Secretary Chandler on Friday, and immediate action is expected.

Some local parties interested in the appointment do not believe that any action will be taken so soon as tomorrow.

That Ironton Report.

Secretary Stearns of the Ironton Land company, says that the report in a morning paper regarding the building of a steel plant for manufacturing under the York patent is incorrect. As everybody knows, Mr. York negotiated some time ago while here, but no contracts were signed. Mr. York is not in Europe, and if such a deal should go through as that proposed by Mr. York, ex-Collector Simmons of Boston, would have nothing to do with it. Mr. Simmons is in Europe but is not negotiating for money for the proposed steel plant.

Where Are the Game Wardens?

A Sweden painter toted a deer up First avenue east last evening, took it to the rear of the lot at 421 First avenue east, and disemboweled, cleaned and cut up the animal, despite the protest of his neighbors, saying he did not care for any law. He was happy.

Municipal Court.

Philip Lemore, James F. Duffy, John Duile and David R. Bell were committed for drunkenness.

Nels Nelson paid \$5 for keeping an unlicensed dog.

Shoes at Medium Price

To suit the times, put up to standard in style, fit and durability at Wicland's, 123 West Superior street.

highest of all in Leavening Power.—U. S. Gov't Report, Aug. 27, 1889.

Children Cry for Pitcher's Castoria.

Wicland has the finest line of \$5 men's shoes in the city. Calif and cordovan. Perfect style, finest finish. Unexcelled for fit and wear.

C. E. Richardson has removed to 25, Board of trade.

PERSONAL.

Wm. McRae has gone to St. Paul.

John D. Stryker went East last night. Simcoe Chapman is off to the Pacific coast again.

H. S. Stearns is visiting his old home at Beverly, Mass.

J. G. Woodland of the St. Paul Dispatch, is in the city.

A. D. Thomson and T. J. Davis leave for Chicago this afternoon.

The family of City Engineer Keating will remain in Halifax until the fall.

Miss Maggie Thorold left last night on the steamer Monarch for Sarnia, Ont.

Auditor LaVigne is greeting old army companions at the St. Cloud encampment.

C. A. Pearson and Mrs. Pearson left today for a two weeks' outing on the Brule.

Geo. Brower leaves in a few days for Portland, Me., to visit friends and relatives.

Mr. and Mrs. H. C. Crawford entertained a number of friends at their home last night.

Han G. McMillen, general agent of the Great Northern at Winnipeg, is in town.

W. W. Walker, traveling freight agent of the Duluth, South Shore & Atlantic, is in the city.

The mother of Mrs. W. G. Willis, who lived here a few years ago, died recently in Dudley, Mass.

Miss Louise Noyes and Miss Fannie Burbank start for Maine next Monday to spend the summer.

F. A. Greene and Messrs. Mitchell and McLean are fishing for trout on the Nipigon. They will be gone two weeks.

L. W. Spear's father and brother, who have been visiting him here, left for Minneapolis yesterday, but will soon locate in Duluth.

A. Culver of New York, who has been visiting his son, Attorney F. D. Culver for the past few days, leaves today for Britton, S. D.

Mrs. T. A. Olmsted has gone to New York to meet her husband on his return from Europe. The sailing party reach New York on Friday.

Dr. Sheldon Storey, received a telegram this morning from Albany, N. Y., where Mrs. Storey is visiting her mother, that she is the father of a boy baby.

Miss Alice L. Clinch and Alex. Frazer, prominent in the Christian church, will be united in marriage on June 17 at the home of the bride, No. 10 Fifteenth avenue west.

Miss Belle Beatty and Miss Osborn, of Mankato and Miss Minnie Lee, Mrs. J. M. Reel and son, of Duluth, make a party to Buffalo tomorrow on the steamer Nyack.

Conductor Steve Hanna, for several years in the employ of the Duluth & Iron Range, severed his connection with the company yesterday and will shortly leave for the South.

N. J. Kason, of Pittsfield, Mass.; John Owens, of Tower; Thomas R. Field and G. Thomas, of Houston, Minn.; E. Rothwell, of Little Falls, and Wm. F. Gage, of Johnston, N. Y., are at the St. Louis.

Rev. G. T. Wells, state organizer for the prohibition party, is in the city reviewing the organization and getting things in shape for next year's campaign, and when the politics of Minnesota will receive a new baptism.

The summer tourist season is beginning. The Nyack came in this morning with quite a party of tourists, among whom were Miss Hudson, Mrs. Wisner and Miss Louise Webber of Detroit. They were met here by J. L. Hudson, a wealthy merchant of St. Paul.

A. M. Stearns returned this morning from a trip through the Red river valley. He found crop prospects excellent and the farmers in good condition. Merchants told him that they never received so much cash for goods as they have this spring.

A VIGOROUS OBJECTION.

A Juror Objects to a Statement Made About Him.

To the Editor of The Herald.

Under the heading of "Seen and Heard" in your last evening's paper is an item touching upon the experience of jurors in the jury room, having reference to an incident that occurred recently and which reflects somewhat severely upon me.

Though my name is not given out, my eleven companions well know who is referred to, as being termed in said paragraph "the meek man of the jury."

The informant further states that "when ever a case is given to the jury the juror referred to flatly refuses to cast a vote until he has partaken of a good meal and in each instance has won his point, although on one occasion it took him an hour and a half."

In my answer I said so far as the application of the word "whenever" applies.

Now as to the statement of facts and conclusions of law in the premises, I had served as a juror the day previous to this day cited of unpleasant experience; my business and other home duties necessitated my application until midnight, when I "rested," but the first gleam of daylight reminded me of the coming day's routine of hard work and I responded and commenced at 4 a. m., breakfasted at 6, and again applied myself to manual and mental work and arrived at the court house six miles distant from my residence in time to serve as a juror. The trial was a very important one and close attention required to keep the run of all the facts presented by witnesses, arguments by counsel and last but not least law by the court who then charged the jury, after which they retired to the jury room, the time then being high noon, which is the appointed time for both man and beast to restore the waste of brain and body by partaking of food. In short, it was dinner time, and I asked no more than is demanded by ninety-nine out of every hundred at this time of day. I did then insist upon refreshment. Now, as to the law and its conclusions. It is the law that each juror takes the oath that he will, truly and impartially, try the case before him. Can he do so if his mind is clouded from exhaustion? In the case cited there were six different responses to make to the questions presented by the court for consideration. Who, then, is the meek man in the country—he who buckles on the armor of thought well and truly, and impartially tries the case; or he who, in his anxiety to get out of the jury room, is willing to decide the case upon the flip of a coin or a hasty, hungry vote and, failing in which, he gives vent to his disappointment by trading his fellow-juror. In this fair and just?

CHAS. M. CURRIAN.

A Fine Collection.

M. Kelly, the florist, 1122 East Fourth street, has received a new stock of plants from New York including the largest and finest collection of palms and ferns ever seen in the Northwest. There is not a finer collection either in St. Paul or Minneapolis. Those arranging for private parties or public entertainments should not fail to see this collection.

Children Cry for Pitcher's Castoria.

Wicland has the finest line of \$5 men's shoes in the city. Calif and cordovan. Perfect style, finest finish. Unexcelled for fit and wear.

C. E. Richardson has removed to 25, Board of trade.

THE MARKETS.

Wheat Breaks Heavily From the Government Crop Report.

Figures.

What opened weak at 3c decline all around from last night's close, except for July No. 1 hard, which sold early at unchanged prices. The market ruled weak with declining tendencies during the fore part of the session, and July No. 1 hard broke to per bu from the opening deals.

The weakness in 11 markets today was caused by the government crop report, being generally considered a very favorable one in regard to the prospects for a large crop of both winter and spring wheat. Statistics are being eagerly looked into in figuring out the probable total yield based upon Mr. Dodge's reported acreage and percentages of condition. Their results vary all the way from 424,000,000 to 540,000,000 bu. The more conservative conclude that if the present excellent conditions are fully maintained to harvest we may safely count on a 500,000,000 bu crop, or 100,000,000 bu in excess of last year's crop.

The market closed dull and weak at a decline of 2 1/2c for cash, and wheat and 2c to 2 1/2c for the futures.

Cash No. 1 hard closed dull at \$1.04; Cash No. 1 northern closed weak at \$1.03; Cash No. 2 northern closed weak at 95c; June No. 1 hard closed 2c lower for the day at \$1.01; June No. 1 northern closed weak at \$1.01; July No. 1 hard closed at \$1.01; July No. 1 northern closed weak at \$1.01; September wheat closed normally 2 1/2c lower for the day at 95c; No. 1 hard and 90c for 1 northern.

Grain Movement.

Cars on track, 42. Receipts—Flour, 8407 bbls; wheat, 37,027 bu; oats, 17,098; flax seed, 1072. Shipments—Flour, 23,237 bbls; wheat, 403 bu.

THE JUNE WHEAT REPORT.

Condition of Winter Wheat 93.6. Spring Wheat 92.6.

WASHINGTON, June 11.—The June report of the statistician of the department of agriculture makes the area in winter wheat, as compared with the breadth harvested last year, 111.5; spring wheat, 103.4; barley, 107.1; rye, 101.5; oats, 97.9. Condition of winter wheat, 96.6; spring wheat, 92.6; barley, 90.3; rye, 85.4; oats, 85.

New York Market and Stocks.

New York, June 11.—Money 2 1/2c; 3 1/2c per cent. Exchange—London, 48 1/2; actual rates, 48 1/2 for sixty days and 48 1/2 for ninety days.

The stock market was dull again this morning. Only 64,800 shares changed hands in the two hours from morning to noon. Prices were firm, however, and generally a fractional higher at noon than they closed last night. The Bank of England did not raise its rate of discount, as some predicted. The bill in the bank increased \$280,000 during the past week and the reserves increased \$1,097,000.

Dealings were chiefly confined to Atlantic City, Chicago gas, St. Paul, Louisville and Union Pacific. There was no feature of interest in connection with the dealings.

Chicago Wheat.

Chicago, June 11.—The markets all opened lower and weak. Wheat started at 97 1/2c for July, fell quickly to 97 1/4c for July and 94 1/2c was back to 97 1/4c. The first sales for July were at 96 1/2c, little at the outside fell to 96 1/4c and at 94 1/2c was 96 1/2c bid. Oats weak, July selling from 42 1/2c to 42c. Pork made a sharp break. July opened at \$10.25 but quickly dropped to \$10.10; September started at \$10.50 but in a few minutes fell to \$10.35. Lard and ribs steady at \$6.10 for July and \$6.30 for September.

The following is the close: Wheat, July, 96 1/2c; September, 92 1/2c; Corn, July, 53 1/2c; September, 53 1/2c; Oats, July, 41 1/2c; September, 35 1/2c; Pork, July, 42 1/2c; September, 41 1/2c; Lard, July, 10 1/2c; September, 10 1/2c; Ribs, July, 57 1/2c; September, 55 1/2c.

Additional West Duluth.

Saturday afternoon the "Duluths" will play ball with the "Duluths" and an interesting game is promised.

E. Jameson, of Portsmouth, N. H., has bought the Bonito lot in block 11, Central avenue and will build a store building.

Four vagrants were run in this morning and three of them were sent to the county jail and one allowed to depart.

H. B. Totten, of Cleveland, Ohio, is a partner in a good restaurant of a good order.

Mrs. James Nettie, of Soudan, Minn., is visiting Mrs. T. Govett.

Will Ruhlman, of Minneapolis, is a guest of Mr. J. Luther.

Rev. Wm. Moore went to Spooner, Wis., this morning to attend the funeral of an old friend.

J. Sparkling, of Tacoma, Wash., is looking over the city and will locate here.

J. R. Gillis leaves the last of the week for Buffalo as a delegate to the Sec't convention at that place.

Thomas and Thomas are moving their law office from the Silvey block to the Chamber of Commerce building in Duluth.

A laborer named Joseph Allard employed by the water company, while at work yesterday evening in one of the trenches had his leg broken by a falling plank.

Clan Matheson gave a social and dance at their hall last evening.

The French in Liberia.

London, June 11.—Advices from the west coast of Africa state that much excitement has been aroused in Monrovia, the capital of Liberia, by news that the French have seized part of the Liberian coast, near Cape Palmas. An appeal will probably be made to the United States against this action on the part of the French, who claim that the territory in question is within the sphere of France.

The Liberians have held much of the coast now claimed by France almost since the foundation of the Liberian republic and citizens of the republic are settled there and engaged in trade. Should the French put garrisons and customs houses in the ports on the coast, trouble will no doubt ensue, and the Liberians have no power but the United States to look to for assistance.

The French have for a long time regarded the African republic with much jealousy, and made encroachments on its interior boundaries, however, is the first move on the coast.

OUR LIST

Photographs of Furniture also samples of Carpets, Rugs, Draperies, Crochery, etc. Our representatives, Mr. C. C. Hutchins and Mr. P. L. Smith will make their headquarters at the Spaulding house, Duluth, and Superior, Minn., from June 8 to 13 inclusive. Drop a postal card to either of the above-named gentlemen at either hotel and he will call on you immediately. Not only will they show you the same extensive line of goods, and the same low prices which prevail at our home Minneapolis store, but the same PLAN OF EASY PAYMENTS, which has made our store so popular in the entire Northwest, will be at your service. This, coupled with the FREE DELIVERY of all purchases (which is extended to extend to the above-named gentlemen) will, we trust, impress you sufficiently to INVEST A CENT IN A POSTAL CARD as a guarantee of a personal inspection of our goods IN THE HANDS OF ONE OF OUR REGULAR SALESMEN, which we are sure will be appreciated and largely improved. We urgently desire that you look over the Photographs and Samples our salesmen bring with them, where you want much or little. We are the largest Home Furnishers in the Northwest, and FURNISH COMPLETE from the upper NW corner of the attic to the lower SE corner of the sub-basement.

MAMMOTH FURNITURE AND CARPET STORE

CITY BRIEFS.

Mortgages bought. Collateral and short time loans wanted. C. A. & F. H. J. J. Crawford, of Durkin's undertaking establishment, went to Floodwood today to bring to Duluth the body of a man found floating in the St. Louis there yesterday.

An aged man named Banda slipped from a car yesterday at Tenth avenue east and Fourth street, and fell, his right foot getting under the wheels. He is at the hospital.

George Taylor was awarded the contract for building a wooden trestle on Railroad street, from Fifth to Sixth avenues west, at \$3750.00. W. H. Holden bid \$4700.00, Samuel Menner \$1816.00 and Hoyer & Mitchell \$1416.

The Saturday club having learned of the engagement of Miss Chaffee since their arrangements with her, by another society, have decided with regret that Duluth is too small to support two courses of so similar lectures.

The Mesaba Iron company yesterday re-elected Alexander Ramsey, president; M. V. Mills, vice-president, and W. W. Spaulding, secretary and treasurer. The option on 8000 tons of iron to the Mesaba syndicate was extended.

Sidney Brown, a violinist of note, will be in Duluth about July 15. He is now in London and comes here through the efforts of Mr. Ernest Lachmund, with whom he studied in Leipzig, and expects to make Duluth his home. He will be a most valuable addition to Duluth's musical life.

The remains of four bodies were discovered yesterday by workmen engaged in excavating at Sixteenth avenue east and Jefferson street. They were taken to the new cemetery for reinterment. The bodies were some buried before Duluth had a cemetery.

H. J. Atwood narrowly escaped fatal injury in attempting to board a short line train at the Rice Point bridge station yesterday. He was thrown about twenty feet and landed on the trestle so near the train that the sole of his right shoe was crushed. He was cut about the head and his shoulder was bruised.

We buy notes and short time paper also purchase money mortgages. Clark & Crossley, 402 Ballard building.

Good three, five and ten percent loans wanted. T. O. Hall.

FROM A HOTTER CLIME.

A Visitor From New Mexico The Late

Tapacholampo Science. I. H. Hawkins, of Phoenix, Ariz., is in town. He is the brother of Attorney Harry Hawkins, by whom he is being shown about the city. Mr. Hawkins went to Arizona a few years ago as the attorney of the Texas, Topolobampo & Pacific Railway & Telegraph company, of which the late Secretary Windom was the president. "The line," said Mr. Hawkins, "was intended to run from Tapacholampo in Old Mexico on the Gulf of California to some point in Florida. Its name alone was enough to kill the enterprise, but it could not be abandoned until a first-class name, for the cost through the mountains would have been at least \$100,000 a mile."

When Mr. Hawkins left Arizona five weeks ago the temperature was 106 degrees in the shade. The summers are almost intolerably hot, but the winters are delightful. "This weather you are having here today is a fair sample of our winter weather," said Mr. Hawkins. Phoenix, the present capital of the state, is a town of 5000 situated in the Salt River valley, which valley is one of the gardens of the world. The irrigation canals can be extended into the great Arizona desert, there a luxuriant vegetation can be induced to grow. Notwithstanding the many diseases that Arizona has on account of the nature of the country Mr. Hawkins has many good words to say of it.

AID LONG'S MEDALS.

Considerable interest in their Award at Tomorrow's Commencement.

Considerable interest is being manifested in the coming contest for the medals offered by Alderman Charles A. Long, to be decided tomorrow night at the Opera house. The medals are of gold, consist of pins and pendants of fair size and are very pretty in design. They are two in number and are offered to those scholars of the graduating class of the High school who shall make the best showing, as determined by competent judges, in the delivery of orations and the reading of essays. The prizes will be awarded by Alderman Long himself. The two scholars who deliver Latin orations will be debared from competing. This is the first time that prizes have been offered in the Duluth public schools.

In Municipal Court. Judge Hanson presided this morning. Mat Shields was committed for drunkenness, while Fritz Bark had his case adjourned. C. E. Dunn was committed for vagrancy.

Tonight's Events.

Music festival, Temple Opera.

Pfeffer's Former Employer Here. The man who induced United States Senator Pfeffer, of Kansas, to run for office was in town today for a few hours and had a short sista with his old schoolmate, County Attorney Tene. His name is H. A. Heath, and he is the proprietor of the Kansas Farmer, of which Pfeffer has been editor for ten years and which has a wide-reaching influence through its advocacy of alliance principles. He is a plain looking man of about 33 years, and makes a very good impression. Like most alliance people he is an extremely ardent advocate of free silver. His trip here was made in the interest of the government's agricultural department, of which he is a special agent.

Wants to Bet Against Monroe. Up to the hour of going to press, no appointment had been made to the land office registration. The general impression seems to be that Monroe Nichols will draw the prize, but one gentleman who is very conversant with land department movements offers to bet a bottle of champagne water that he won't.

Short breath, palpitation, pain in the chest, weak or faint spells, etc., cured by Dr. Miles' New Heart Cure. Sold at Max Witth's.

PERSONAL.

City Attorney Allen is in St. Paul.

A. D. Thomson is in Chicago today.

H. J. Horne, of St. Paul, is in the city today.

F. B. Banning, of Wilmington, Cal., is at the Spaulding.

H. W. Merchant, of Philadelphia, is here on a business trip.

H. I. Nelson, of Tower, came down from the range today.

Mr. and Mrs. H. P. Gill returned yesterday from their European trip.

Miss Simonds, who has been studying music in Boston, has returned.

J. T. Dore and Bert Sheldahl went to Pike lake on an exploring expedition.

E. Thomson and wife, of Chicago, are at the Merchants on their wedding tour.

A. Schofield and James T. Connor, Sugar landowners, are at the Merchants.

J. L. Daugherty, traveling passenger agent of the Missouri, Kansas & Texas, is in town.

J. C. Sinclair, manager of the Western Union telegraph office, went to Minneapolis today.

Miss Louise Nuyes and Miss Fannie Burbank leave for Maine Monday to spend the summer.

Melville Milne and family, of Crookston, are spending a few days with their parents in this city.

J. H. Lischert and J. A. Collins will attend commencement exercises at Toronto university on the 23d.

Miss Miller, daughter of Mr. and Mrs. M. Miller, has returned from Philadelphia where she has been at school.

J. N. Bailey, postmaster at Carman, Minn., is in the city stopping for a few days with his friends, the Milne family.

Attorney P. H. Seymour, called here by a land contest case, which didn't come off, left for his Washington home this afternoon.

A party consisting of Mr. and Mrs. W. H. Bassett, Miss Belle and May Hamilton and Mr. S. Welch will picnic tomorrow at Fond du Lac.

M. W. Ware, of Chicago; R. Bonnell, of Beaver Falls; P. J. Havenor, of St. Paul, and R. E. Estery, of Columbiana, Ohio, are at the St. Louis.

Mrs. Lehigh and Miss Julia Donovan are expected back from New Castle, Pa., this evening, where they have been visiting for the past two months.

Dr. and Mrs. F. C. Bowman will leave tomorrow for Atlantic City, N. Y., where they will visit the salt breezes at the same time that they are attending a convention.

The Misses Peck, who have been visiting with Mr. and Mrs. Wm. C. Sargent at Lakeside for the past four months, left yesterday to spend the summer at the sea shore.

Mrs. F. C. Gilbert and children are expected home next week. They recently went from Florida to Brooklyn and a little later to New Hampshire. They are now in Michigan.

H. S. Hudson, of Cortland, N. Y., Chas. F. Brooks, U. S. A., T. A. Hilles, of Wilmington, Del., W. D. Hatch, of New York, J. W. Bishop and wife, and E. J. Bishop of St. Paul are at the Spaulding.

A party of Saginaw people came in this morning by boat, among the most interesting being J. C. Prescott and wife, Miss C. G. Fellows, Miss J. B. Moore, R. J. Rodgers, M. P. Skinnison and G. O. Johnson.

Mr. and Mrs. C. F. Howe, Mr. and Mrs. H. C. Crawford, Mr. and Mrs. E. D. Field, Mr. and Mrs. T. H. Hawkes and others will make up a party that will spend a short time at Isle Royale next month.

Chief Deputy Internal Revenue collector J. W. Vars and Deputy Collector J. A. Heimback will come to Duluth to go on a fishing trip with J. W. Nelson, M. H. Bywater and Deputy Revenue Collector J. H. Nordby. They will probably go down the lake.

THE JOBBERS.

Important Meeting Held Last Evening.

Railroad Rates Discussed.

The jobbers union held a meeting last evening at which freight rates were discussed. C. C. Prindle reported that the committee on transportation had considered the subject. Mr. Barber had furnished the committee with the published rates from Duluth, Minneapolis and Chicago to Missouri river points. There is a difference of about nine cents between Duluth and Chicago. He stated that there was no discrimination against Duluth so far as the wholesale grocery business was concerned, but with lumber it was different. Mr. Williston wanted the lumber tariffs collected and something done immediately. Mr. Hanford agreed with Mr. Williston that they could not afford to guarantee the railroads a certain amount of freight per annum, but believed it would be a good plan to offer one company all their business for a year if it would be the first to cut rates and meet any further cuts. The discussion brought out the fact that if rates west and southwest were made fair, the lumber business would be fully restored here and at least 500 more men would be employed in it in Duluth. A freight man asked Mr. Williston the other day if they would be satisfied with St. Paul and Minneapolis rates, showing that the railroads are coming round. It was decided to have the assistant secretary, who will be appointed in a few days, collect a complete list of freight rates, Mr. Anneke called notice to the fact that every town and city in the state were given half rates to the turn table at St. Paul, June 20, except Duluth. The matter was referred to the committee on transportation. A committee was appointed to look up permanent quarters for the union.

President Ordan appointed the following standing committee: J. B. Sutphin, W. McKinley, D. G. Cutler, C. B. Woodruff, T. B. Hawkins.

Legislation—R. A. Costello, W. P. Allen, J. B. Sutphin, A. B. Chapin, B. C. Church, Insurance—H. H. Hanford, W. S. Conklin, Capt. Le Salle, A. L. Simon, P. Anneke.

Taxation—John McKinley, C. B. Woodruff, J. K. Siver, F. A. Patrick, H. P. Gill.

Membership—H. Williston, C. C. Prindle, E. F. Melver, M. Richardson, J. E. Granger.

Transportation—C. C. Prindle, E. F. Melver, L. A. Barber, D. G. Cutler, C. D. Wright.

THE MARKETS.

Wheat Opens Lower But Strengthens Later in the Day.

The local wheat market opened lower, with little doing, but buying orders strengthened it later, though done. The last hour was very dull, but the market was strong, and the close was the same as yesterday's, save for July No. 1 northern, which was 1/8c higher. A Chicago dispatch says there is no profit in buying wheat on today's quotations and shipping it to Liverpool. Fifty loads were taken for export at New York today.

Chas. No. 1 hard was dull and closed at \$1.04. Cash No. 1 northern sold at \$1.01 just at the close, declined at the mill. Regular in stock closed at \$1.00 1/2. Cash No. 2 northern closed same as yesterday at 90 1/2 nominal. June No. 1 hard ruled dull and closed firm at \$1.04. June No. 1 northern opened weak and 1/8c lower at \$1.00 1/2, ruled dull with advancing tendencies, recovered the decline and closed firm at \$1.01. July No. 1 northern opened dull, with good buying orders early at 1/8c below last night's close. Sellers were few. It closed firm at \$1.01. July No. 1 northern opened weak and 1/8c lower at \$1.00 1/2, ruled dull with advancing tendencies, recovered the decline and closed firm at \$1.01. July No. 1 northern opened weak and 1/8c lower at \$1.00 1/2, ruled dull with advancing tendencies, recovered the decline and closed firm at \$1.01.

Grain Movement. On track 29. Receipts: Flour, 14,384 bbls; wheat, 85,529 bu; corn, 608 bu. Shipments: Flour, 13,951 bbls; wheat, 148,418 bu.

Chicago Wheat.

Chicago, June 12.—At the market opened weak, but apparently demoralized. July, started at 95 1/2¢/bush, or 1/8c below yesterday's close, sold to 35c then to 95 1/2¢ and at 95 1/2¢. Corn opened almost panic; July, opened at 54 1/4¢/bush, but broke specially to 53 1/2¢ and at 54 1/4¢. Oats, July, 41¢, followed corn, July, opening at 40 1/2¢, fell to 39 1/2¢. Pork started with one sale at \$10.20 for September, but almost immediately sold at \$10.00 and the amount \$10.00. July lard sold at \$6.00, and September at \$6.25. Ribs steady at \$5.92 1/2¢ for September.

The following is the close: Wheat, July, 96¢; September, 93¢. Corn, July, 33 1/2¢; September, 33 1/2¢. Oats, July, 41¢; September, 39 1/2¢. Lard, July, \$6.07 1/2¢; September, \$6.32 1/2¢. Ribs, July, \$5.85; September, \$6.10.

New York Money and Stocks.

New York, June 12.—Money 2 1/2¢/100 per cent. Exchange steady; posted rates, 165¢ for sixty days, and 168 1/2¢ for demand; net rates, 145 1/2¢ for sixty days, and 147 1/2¢ for demand. Government securities, 6 1/2¢, 100 bid. There was a better feeling on the stock market this morning owing to the easier rates for money, but to the fact that no gold had been engaged for shipment. Dealings continue very limited. This morning the total transactions were several thousand shares less than the amount sold during the two hours of yesterday morning. Fluctuations were confined to the very narrow range of a few points, and was especially weak. Values at noon were fractionally higher than those of yesterday.

Local Bank Clearings.

Today's local bank clearings were \$337,165.00.

Corn Has Risen.

Bentons, June 12.—Owing to the debate in the diet, corn has risen further in price.

Railroad Matters.

Northern Pacific Train Dispatchers Removed From Brainerd to West Superior.

The Northern Pacific train dispatchers' office for the Wisconsin and Eastern Minnesota divisions was yesterday removed from Brainerd to the terminal floor of the Union depot at West Superior. E. C. Blanchard, the chief, and Messrs. Nichols and McLean, who constitute the force, are well and favorably known at the head of the lakes and they are very highly welcomed. The change was necessitated by the increasing number of freight trains at the end of the line. The Northern Pacific bridge is about as troublesome a piece of track as there is on the whole of the great system on account of the enormous passenger traffic between Superior and Duluth. If the increase keeps on much longer the coal business will be seriously affected. It is about the hours of midnight and 6 a. m. About the only way to remedy matters seems to be to build a double track on the bridge.

The Great Northern is building a log structure, four feet high, parallel with the track, on the bridge, for the purpose of acting as a retaining wall for the sand embankment. It is stated that on this structure rails will probably be laid to allow the road to run its trains into the new Union depot. It is also believed that the Omaha will use the Union depot.

Grammar School Exercises.

The evening grammar school of the Duluth school district held their closing exercises at the High school building this afternoon. The essays, orations, and other exercises were highly creditable. There are twelve graduates from West Duluth and eighty-seven from Duluth proper, making ninety-nine to enter the High school in the fall.

Closed by the Whisky Trust.

St. Paul, June 12.—The whisky trust last yesterday afternoon the South St. Paul distillery, the only distillery in Minnesota. It throws several hundred men out of employment. The officers of the trust gave it out that the shut down is only temporary, owing to the scarcity and high price of corn. Reliable information obtained elsewhere, however, is to the effect that the closing of the Minnesota distillery is but the beginning of a general closing of the Illinois and Kentucky distilleries to bull prices.

Notice of Removal.

We have moved to 106 West Superior street, in Woodruff building, part of store occupied by Duluth Music company. We invite all our old friends to call and see us.

Andrew Jackson, Jeweler.

Shoes at Medium Price

To suit the times, but up to standard in style, fit and durability at Wieland's, 123 West Superior street.

A Fine Collection.

M. Kelly, the florist, 1122 East Fourth street, has received a new stock of plants from New York including the largest and finest collection of palms and ferns ever seen in the Northwest. There is not a finer collection either in St. Paul or Minneapolis. Those arranging for private parties or public entertainments should not fail to see this collection.

OUR LIST of customers in Duluth, Superior, West Superior and vi-
suals is so large that we cannot name them all. We have a large stock of
furniture, carpets, rugs, draperies, crockery, etc. Our rep-
resentatives, Mr. C. C. Hutchins and Mr. E. L. Smith, are at the Spaulding
house, Duluth, and Superior House, West Superior, from June 5 to 13 inclusive. Drop a postal
card to either of our gentlemen at either hotel and we will call on you immediately.
Not only will they offer you the same extensive line of goods and the same low prices which pre-
vail at our regular in the entire Northwest, but they will also give you the
FREE DELIVERY of all purchases (which system we have decided to extend to the above men-
tioned places) with freight, express and cartage. A POSTAL CARD as
suggested above. The opportunity of a personal inspection of our goods IN THE HANDS OF
ONE OF OUR REPRESENTATIVES is one which we are sure will be appreciated and largely
improved. We warmly desire that you look over the Photographs and Samples our salesmen
bring with them, and if you want major or minor household furniture in the
Northwest, and FURNISH COMPLETE from the upper NW corner of the attic to the lower BK
corner of the subcellar.

Trades Assembly.

At the Trades and Labor assembly meet-
ing last night the credentials of J. Cos-
grove, plumber, and J. Harmon and E. B.
Trangle, trimmers, were accepted. The
committee to solicit assistance for the
Duluth Daily Union. The committee to
information that they had given up
their struggle for eight hours. The com-
mittee on organization was instructed to
visit earnings and wagon makers and urge
them to form a union. The plasterers re-
ported that they had all gone back to
work at the nine-hour-a-day scale of wages.
The clerks reported some trouble was ex-
pected over the early closing question
from grocers. A standing committee on
lectures and entertainments was ap-
pointed. This committee was instructed to
make arrangements for a ball in aid of
the Daily Union. The committee to visit
merchants against their advertising in
non-union papers reported fair success.
A preliminary committee on Labor day was
appointed. Nominations for the election
to take place at the next meeting were
made as follows:

For president, E. Applegreen; vice pre-
sident, J. W. Jackson; recording and cor-
responding secretary, J. McCarthy; financial
secretary, H. H. McChesney; treasurer, T.
R. Glesener; sergeant-at-arms, D. H. Mor-
rison; trustees, A. P. Johnson, Jas. Cos-
grove, H. Dorenschuk, D. H. Morrison, J.
Harrison, R. Broadbent, H. Stephens; sta-
tistician, J. McCarthy.

"Facts as to Ironston."

To the Editor of The Herald.

Published in today's News I find the fol-
lowing: "Capt. Fred Barrett was the
public-spirited man whose efforts had
secured to Duluth the prominent suburb the
"Covington fife," for that it was." In the
whole article the name is not again men-
tioned, but "Capt. Barrett" and "Bar-
rett" are frequently referred to. And I
believe this was done purposely and with
malice. Who is "Capt. Fred Barrett?" I
certainly never claimed to have ever ac-
cording title. Why does the writer
never again use that given name, but
with apparent skill leaves the impression
that "Fred" Barrett has "shaken Duluth"
and is frequently referred to. And I
believe this was done purposely and with

FOR CONGRESS FROM THE SIXTH.

Candidates for congress from this district have been quite plentiful, but are getting pretty well thinned out at last. The only ones now seriously considered are the following: Benches—Col. C. H. Graves, G. G. Hartley, Judge Paige Morris, Judge Stearns and H. C. Kendall, of Duluth; Frank E. Seales of St. Cloud, Bob Dunn of Princeton, G. S. Pease of Anoka, A. Y. Eaton of Buffalo, A. W. Sheets of Long Prairie, R. C. Mitchell and G. S. Canfield of Grand Rapids, Senator Allen of Cloquet, John D. Boyd of Orono and A. De Lacy, Wood of Grand Marais.

The democrats are in a still thinner condition and have now prominently before the district only Henry Keller, the well-known Bying Dutchman of Sauk Center; Representative H. C. Stivers, of Brainerd; E. C. Griddle, C. d'Antremont, C. P. Maginnis, T. E. Hanson, H. B. Moore and Editor Tom Bowen, of Duluth; Mayor Martin, of West Duluth; Representative Bull, of Wright county; Representative Foley, of Aitkin; H. H. Hawkins, of Carlton county, and a few others. The alliance will probably trot out Charles Canning, of Duluth, as their most distinguished and faithful representative, though they have other able men. The prohibitionists will nominate C. E. Shannon, Z. D. Scott or Rev. Edward M. Noyes, of Duluth.

Thus it will be seen that the new Sixth district is well supplied with congressional timber, and will not go unrepresented. The democracy and the alliance might unite and sweep the field on a low tariff and free coinage of American silver, but are not drifting toward each other very fast. The republican attacks on the farmers the past winter have alienated the promoters of agriculture from that party, and the district once so overwhelmingly in its favor is now a doubtful quantity. The farmers and wage-workers of the district hold the prize in their hands and can by unity of action bestow it where they will. It is not enough that political parties promise in their platforms to bring relief to the farming and laboring classes, but they must put forward as candidates men whose past records are an earnest of their future action. Party names have of late lost much of their significance, and the voter asks that faith be shown by work in his behalf. With the right platform, the right candidate and harmony, the district is sure enough for the republicans, but they can't throw away any of these cards and win the game.

POOR BONDHOLDERS.

In a recent issue of The Herald reference was made to the discharge of workmen from the West Superior shipyard. We are informed that discharges will continue, and that only a sufficient number will be kept at work to cover the conditions of the contract based upon a bonus of land and money.

It is said the contract was for five years upon a gift in lands and money of \$50,000 a year, or a total of \$250,000 for the five years. It is said also that to better establish the plant in building the wharves at West Superior, bonds were issued in the East and sold there at par bearing 5 per cent interest. If the work is to be suspended at West Superior and transferred to the new town site on Puget Sound, we suppose the present bondholders will have a double security—or possibly a new issue of bonds will be necessary to make the work effective on the coast. Of course if the Land and River Improvement company across the bay issued bonds to raise money with which in part to repay themselves for advances to boom the value of their own real estate, it would seem but just to Eastern bondholders of this company that additional stock be given them to cover the possibility of default of interest on the bonds liable to occur if the shipyard at West Superior is abandoned.

It is a fortunate matter that Duluth was outbid by West Superior for this plant. For to have the interest of a city at the mercy of a few boomers is a great mis-

fortune, and what at the time seemed to us a loss is now becoming a blessing undigested. It is fair to presume that if the directors of a land company can move a railway station to affect real estate values, similar pranks may be played with bondholders, who are so far away that their confidence cannot be impaired even by the social or monetary influence which induced the investment. It is well said, "Duluth, the solid!" and if we are "wid-swept," better ten times the breeze and buffeting of an easterly gale than the slings and arrows of such outrageous fortune.

Secretary Noble will return to Washington Monday, and soon thereafter the result of the fight for the Duluth land office will be known. It is to be regretted that so much criticism and recrimination should grow out of the little plan. The boys have all held honored rank in their party, and it is rather late to jump upon them when the rewards are being distributed. Truly, spoils are the weakness of a political party. It is neither blessed to give nor receive them.

One of the most important events in the annual life of any city is the commencement exercises of its public schools. The character of the work done by these institutions is the best criterion of the intellectual and social condition of the community in which they exist. Duluth takes pride in the school work done here, and Temple Opera will be crowded tonight as an evidence of the popular and profound regard in which the true pulchritude of liberty is held.

The state Sunday school convention will be held in Duluth from June 23 to 25 inclusive. This convention includes representatives from all denominations, and will be a large gathering. Duluth has no peer as a summer city, and with the growth of our accommodations will become the camping ground of the faithful of all creeds and parties. We welcome them to our beautiful metropolis and her sylvan suburbs.

A communication elsewhere in The Herald urges the name of London road for Superior street, beyond Eighth avenue east, where its course is diverted. As the road leads to London town, and has a center-of-population sound to it, the suggestion should receive consideration. The proposition to build a viaduct over the Iron Range railroad where Superior street crosses it is also in the line of legitimate progress.

An impression has gone forth that President Harrison is only the figurehead of the administration, but this is quite a mistake. Mr. Harrison is not a warm, magnetic personage like Mr. Blaine in his palmy days, but he is a clearheaded man of strong convictions, and is his own president. He is made of different stuff than Garfield, and no one knows it better than Mr. Blaine.

We give space elsewhere to a short communication on the Boespentre controversy, which was delayed and is a little late for The Herald news so far back as the Elizabethan age being better adapted to the demands of our morning contemporaries, but as it jabs at genius now living it will still be read with interest.

"What is that peculiar odor I notice about your woolen goods?" asked a purchaser at a clothing store.

"That will wear off," remarked the clerk, "you doubtless smell the McKinley bill."

UP IN Canada they sing, "Sir John Macdonald's body is a mouldering in his grave, while we go marching on." And the more they march the nearer they get to the border.

DULUTH is becoming popular as a summer convention city, and yet there is nothing conventional about our people. The latch string is always out.

The United States is getting to be a 2 per cent country. The next thing to having our own money is to borrow it for the war and tear.

When the people's party holds a spasm the other fellows walk the floor in their nightclothes.

The "eye of the northwest" peeped out of the Wisconsin mail and winked yesterday.

REFFALO wants electric cars, but Duluth has them, too.

When a fellow pines guilty we take his word for the deed.

POPE LEO XIII is writing syndicate letters from Rome.

MISS GARNER tied the Sir Gordon knot all right.

Ten cliff dwellers are way-up folks.

Occupation For Eric.

Two Harbors Iron News: We have a theory to offer, the profound results of hard thinking, the development of which has disoriented a knuckle or two of our brain, but the boys can use it if it will help them out and allow them to retire in good shape. In the neighborhood of the elevators reside a large number of squatters. These folks generally keep a large collection of hens. The hens are forced to forage for a subsistence, and they naturally congregate about the elevators. The wheat that drops from cars to the tracks is largely gobbled by them. Eric Olson could be given a job taking the census of these hens, and estimating the yearly capacity of wheat consumption per hen. His figures would give a basis on which to estimate a real shortage. Better to drop the train load theory boys, and direct your whole intellectual forces to the hen theory.

Excursion.

The steamer Jucker will make a trip around Minnesota point this (Saturday) evening, going inside the bay and out the Superior entry and returning outside the point and through the Duluth entry, making an enjoyable trip of about two hours. The boat will leave the St. Paul & Duluth slip at foot of First avenue west at 7:30 p. m. sharp. Fare for round trip only twenty-five cents.

Notice of Removal.

We have moved to 106 West Superior street, in Woodbridge building, part of store occupied by Duluth Music company. We invite all our old friends to call and see us.

ANDREW JACKSON, Jeweler.

Children Cry for Pitcher's Castoria.

DONNELLY DECIPHERED.

To the Editor of The Herald:

In his lecture here Mr. Donnelly is reported to have said: "It is easy to see that the masses would believe that Shakespeare wrote the plays—why the great masses of today believe it. It is only the intelligent few that have any doubt and the audience I see before me is the representative few of this community." Granted, for the sake of argument. It is as a unit of the unintelligent masses who do not doubt upon this point today that I ask for a hearing to affirm the reasonableness of our faith, at least so far as anything which Mr. Donnelly has to offer us through the medium of the press reporters, who certainly, so far as the writer has observed, seem inclined to do full justice to the weight of his argument.

Attention must be called to the circumstance that the "masses" is fully committed to a theory which, as an advocate he seeks to defend. In view of the eminent scholarship which has been devoted to the study of the work and the meager history which remains of the life of Shakespeare, for many years, conducted as it has been by organized and systematic efforts with the best facilities at the command of intelligence and wealth, it is not improbable that the facts have been ascertained and given to the public to an extent which renders unnecessary any reference to Mr. Donnelly as an exclusive authority.

Any statement of fact, therefore, emanating from him should be amply substantiated by competent authority. The omission of authorities for many statements which are in conflict with those of the most approved text books from which the masses derive their information renders such statements of little weight so long as an appeal lies to reason and common sense. The masses do not recognize any higher court.

As a casual reader of Shakespeare and having had limited opportunity under competent direction to study his work, the writer does not consider himself qualified to pronounce upon the internal evidence which the plays and other writings afford. I may, however, offer a few suggestions which with the little degree of familiarity so acquired, occur to me after reading the News and Herald reports of the Hon. Ignatius Donnelly's lecture. It seems to me, that the speaker does a degree of injustice to the claim of Ingersoll to a respectful hearing upon this question (?) Mr. Donnelly says, "Col. Ingersoll is ignorant, absolutely, of this question, he knows not what he is talking about." It is perhaps needless to say that this form of "argument" which to the common mind does not indicate a very judicial mind on the part of one employing it. As a disputant Ingersoll has been familiarly so acquired, occur to me after reading the News and Herald reports of the Hon. Ignatius Donnelly's lecture. It seems to me, that the speaker does a degree of injustice to the claim of Ingersoll to a respectful hearing upon this question (?) Mr. Donnelly says, "Col. Ingersoll is ignorant, absolutely, of this question, he knows not what he is talking about." It is perhaps needless to say that this form of "argument" which to the common mind does not indicate a very judicial mind on the part of one employing it. CAUGHT A BIG STRING.

A Herald Man Visits Aitkin and Makes a Record as a Catcher of Black Bass.

Some of the best and most beautiful fishing lakes to be found in Minnesota.

A Viaduct on East Superior Street Would: The Name London Road is Good and Should be Adopted.

For the information of many of The Herald's readers who may be contemplating a few days' sport with rod and reel among the many lakes I contribute this paper, and hope also that it may induce some tired, weary office man to lay aside his business cares and go to the lakes. I shall give you the details of my trip to Aitkin and my local reputation for truthfulness (the question mark is mine) is sufficient guarantee for the truthfulness of my story. My friend William Spencer, of Aitkin, visited me last week, and with glowing descriptions of bass fishing enjoyed by the sportsmen at that place, since the opening of the season so excited me that I concluded to accompany him and have a try at it myself. We left Duluth at 7:30 p. m. and arrived at our destination at 11 o'clock, and were soon in bed dreaming of extraordinary fish and fishing "extraneous" only to wake at daylight and find it only a dream. We were out and having secured a shovel and can, proceeded to dig worms for bait, for not always will the game bass take the adhesive minnow or the festive frog, and we were after bass and proposed to catch them even if we had to try all the various baits used for that purpose, and I soon found the can. Not intending to fish till afternoon I improved the time by reviewing old acquaintances among the Aitkinites and so while away the time until it was time to leave for the lake. We landed our boat upon a wagon at 10 o'clock, the sport was started for the lake, which we reached by noon, after making a stop at the river for minnows, frogs and crabs, of which we secured a liberal supply. Spencer delegated to me the task of getting dinner under way, and at the same time remarked that I might not find the "receiving" very large cracks in the bottom of the boat while he would take upon himself the onerous task of catching some fish for dinner. Not being a "kicker" I pushed up some wood and soon had a fire started and the potatoes on to boil and then my attention to the receiving, I succeeded in "kicking" after a fashion. While at this Spencer returned with four fine fish which were very good, and in a few minutes we were sitting in the shade eating as only hungry men will eat upon a trip of this kind. After dinner and smoke and then deciding that the hour had come, at 3:30 we pushed off and were soon on the fishing ground. Not long were we out when I saw a small boat hooked a fine bass and succeeded in landing him, while I followed with a good second. The bass then began to bite freely, and although we lost some, the sport was so fine we did not regret them. A full in the biting gave me a chance to loop on another hook on my line, and Spencer and I serving the action, remarked that he would give me a bottle of "Duffy's," whatever that is, very dry, and upon my landing, at five separate times, a fine double bass, backed out of his part of the bargain. It would make this article too long to tell how each separate fish was taken, or of the fine ones we lost, but at 8:30, when we were about to return, I counted up our catch and had 115 fish, nearly all black bass. A prettier string of fish I have never helped catch, and although we got lost some, the sport was so fine, I would rather have \$200 than my health, I would rather have \$200 than \$100 now. Still, when any of my friends come to me and want to "go in on the ground" and purchase a few fish, I always accommodate them by selling them something at figures which will enable them to double their money in a few months. My philanthropy in these cases is not altogether unselfish, as I am sure that if they are recommended by a few letters to me, they will then be likely to trust my judgment, and again and dip in still heavier and will touch at Northern Pacific West Duluth.

Notice of Removal. We have moved to 106 West Superior street, in Woodbridge, building part of stone occupied by Duluth and Superior. We invite all our old friends to call and see us.

Order your abstracts from the Duluth Title Insurance Abstract company, 229 West Superior street, Chicago, Ill. W. A. Paxon, Manager.

Sunday Excursion. The steamer Barker will make two trips to Aitkin, Superior, and Duluth, on Sunday, June 14th. The excursion is very enjoyable. She will leave St. Paul and Duluth at foot of First avenue west at 10 o'clock a. m. and 2:30 p. m. and will touch at Northern Pacific West Duluth.

Children Cry for Pitcher's Castoria. The feats of mind reading performed by the late Irving Bishop were wonderful, and saved a good deal of the supernatural, though he always claimed there was nothing mysterious about it. Johnston, the phenomenal product of the North-west, has given some wonderful exhibitions, though skeptics have not been wanting who denounced him as a palpable fraud. There is another kind of mind reading not so difficult as that attempted by Bishop and Johnston—to read the mind of the public on a subject of great interest. During the past few years "mind-reading" has carried to all parts of the country thousands and thousands of the bright people of the Northwest, and if you ask anyone what he thinks of this line, you can, before he speaks, read his mind on that question by noting how pleasant recollections of speed, comfort and safety came to his face to light up a smile to break forth. For assistance in this matter ask your local agent for a ticket in "The Burlington" or write to W. J. C. Kenyon, general passenger agent, C. & N. W. R. R. St. Paul, Minn.

Excursion. The steamer Barker will make a trip around Minnesota ports this (Saturday) evening, going inside the city to Aitkin, Superior and returning outside the city, passing through the Duluth strait, making an enjoyable trip of about two hours. The boat will leave the St. Paul & Duluth slip at foot of First avenue west at 7:30 p. m. and return at 10:30 p. m. For round trip only twenty-five cents.

FOUND. A gold toothpick found. Owner's name at Herald office by moving property to 106 West Superior street.

FOR SALE—MISCELLANEOUS. HOUSE and lot for sale. Excelsior Manufacturing Co., Lake Croix, Wis.

SALESMAN WANTED. On salary or commission to handle the new CHEMICAL LIQUID COAT PLASTER. A GRAND RAPIDS BOOMER.

He Gives a Glowing Account of the New Itasca County Eldorado.

A Herald Man Visits Aitkin and Makes a Record as a Catcher of Black Bass.

Some of the best and most beautiful fishing lakes to be found in Minnesota.

"Well, the future of the town have been delayed much longer than they expected in getting matters up there under way preparatory to the great development which is sure to come and which is now near at hand, but we are 'getting there' all the same. First, we had a contest of nearly three months in the legislature over the organization of the county. We had a strong and powerful pine land ring to oppose us, and also the 'Prairie gang,' but we had right and justice on our side and in the end were successful. Then it required some time for the county commissioners to organize and settle the county seat matter, but as to this latter question Grand Rapids was again a winner, and she is now, and always will be, the county seat of that great county. That matter being settled, the next thing to do was to hold an election to vote upon the organization of a village, and to do this, the law required the petition of the citizens, the passage of the necessary resolution by the county commissioners and a published notice ten days. That election was held last Wednesday, and it resulted, of course, in favor of the organization of the village. Now, some two weeks will elapse before a village board can be legally elected. Then a few days more will be required for the officers to qualify and enter upon their duties, and then a few days more will be needed to enable the village board to pass and to cause to be published the necessary ordinances authorizing the grading of streets, the building of sidewalks, etc., etc., according to the plan of the village. By about July 1, the village will have been organized, and will have commenced upon an extensive and a comprehensive system of village improvements, and will be prepared to give employment to a large force of laborers, probably from 200 to 300.

A good deal of building is already going on, but as soon as the village authorities go to work on their proposed improvements, dozens of others will also at once commence to build, and in a short time there will be a building boom in Grand Rapids, certainly as anything in the future can be. From this time on Grand Rapids will be one of the liveliest towns in Minnesota. We confidently expect to get several important manufacturing industries there before the close of the year and feel sure that in the near future it will be one of the very best inland business points in the state; and it is the intention of the citizens there to make it also one of the most attractive towns in the state for those who desire to live in a town that has all the advantages of a city, but without the disadvantages of a city. Those who locate there now will have to wait a long or even half as long as the early settlers of Duluth did, for the modern accommodations and conveniences of civilization. That village has a better and more easily secured house than Duluth had ten years ago, and it has been decreed that she shall have electric lights and a system of water works and street cars within one year.

When asked if he was selling much property on time he said: "I am not selling a great deal, nor am I trying to do so, though I am selling some right along every week. I am not, as you may have noticed, trying and imploring people to come and buy from me, and I do not care to sell any of my own property for less than ninety days, as I believe that by that time every lot in Grand Rapids will bring twice as much as it can be sold for today, and as I am not operating on time for my health, I would rather have \$200 than \$100 now. Still, when any of my friends come to me and want to 'go in on the ground' and purchase a few fish, I always accommodate them by selling them something at figures which will enable them to double their money in a few months. My philanthropy in these cases is not altogether unselfish, as I am sure that if they are recommended by a few letters to me, they will then be likely to trust my judgment, and again and dip in still heavier and will touch at Northern Pacific West Duluth.

Notice of Removal. We have moved to 106 West Superior street, in Woodbridge, building part of stone occupied by Duluth and Superior. We invite all our old friends to call and see us.

Order your abstracts from the Duluth Title Insurance Abstract company, 229 West Superior street, Chicago, Ill. W. A. Paxon, Manager.

Sunday Excursion. The steamer Barker will make two trips to Aitkin, Superior, and Duluth, on Sunday, June 14th. The excursion is very enjoyable. She will leave St. Paul and Duluth at foot of First avenue west at 10 o'clock a. m. and 2:30 p. m. and will touch at Northern Pacific West Duluth.

WEST DULUTH.

F. W. Kammann has returned from a trip to Chicago.

McClure of the firm of Mitchell & McClure is in the city.

E. C. Ellis, of Grand Rapids, Minn., was in the city yesterday.

Morning Clarkson leaves tomorrow for a short visit to St. Paul.

G. M. Davis, of Glenora, Minn., is visiting his brother, A. Davis.

J. S. Kerns has returned from a business trip to Iron Creek, Minn., in the city with a fine lot of horses, which he is disposing of at private sale.

H. H. Clark has just completed the plans for H. P. Smith's new residence to be built in Shady's addition.

The West Duluth police force now present a fine appearance with their new clothes and are a credit to the village.

The St. Paul & Duluth will sell excursion tickets during the 19th and 20th to Portland and back for \$3.00, good money and a published notice ten days.

Fourth of July will be celebrated in West Duluth by the Scandinavian union for a parade and picnic. All the different organizations in the city will be invited to participate and a big time is promised.

The West Duluth Building and Loan association yesterday elected new officers as follows: L. L. Marble, president; S. E. Williamson, secretary; and H. P. Smith, treasurer.

J. L. Ray, a workman at the Iron Works, was hit with a hammer in the hands of an angry Finlander, named Westerland, and his skull fractured.

Dr. Forin was called and dressed the wounded man's head and thinks he will recover, but he is still in a bad way.

Many West Duluthians attended the festival at Temple Opera house last evening and are loud in their praise of the performance. Those who attended both nights express themselves as being better pleased with last night's program than with the preceding one.

Carlson, testing at this place will result in the death of someone yet, and the contractors will wake up to the importance of taking necessary precautions. Yesterday the workmen at the new building, owned by J. L. Ray, were struck by a falling beam, weighing about fifteen pounds a block and a half, and then crashed through the roof and fell on the second floor, killing one man and wounding several others.

Several important manufacturing industries there before the close of the year and feel sure that in the near future it will be one of the very best inland business points in the state; and it is the intention of the citizens there to make it also one of the most attractive towns in the state for those who desire to live in a town that has all the advantages of a city, but without the disadvantages of a city. CITY BRIEFS.

Mortgages bought. Collateral and short time loans wanted. **CLARK & PARSONS.**
E. G. Chapman has nearly completed four \$1000 dwellings on Eighth street and First avenue east.

Heller & Loeb will occupy the building vacated by the Northwestern Clothing House, corner Lake avenue and Superior street.

"Children's Day" will be celebrated in the Bethel tomorrow. The pupils of the Sunday school will be presented with flowers and plants from the conservatory. The county commissioners recently caused 300,000 lake trout to be placed in Pike lake. That fishing resort will be stocked with several other varieties of fish during the summer.

Mayor Davis will probably appoint a mounted policeman for the motor line and another for the outlying districts of the west end.

John LeRoy has sold out his art store, No. 10 East Superior street to O. L. Chamberlain. LeRoy has secured a position at his former occupation, as head sawyer with a lumber company.

There is no truth to the report in the morning papers to the effect that the board of public health had decided on acceding to the request for changing the position of the walks on Piedmont avenue. The matter has not been decided one way or another.

The little girl of Dr. Budd, of Two Harbors, who was taken home from here a few days ago with the symptoms of scarlet fever, died yesterday afternoon. It is believed by some that the little one became poisoned by eating some kind of grass which she found while at play.

Building permits have been issued as follows: Massachusetts Real Estate company, two-story stone and brick houses on lots 12, 13 and 14, block 41, Portland, \$13,000; J. C. Hunter, dwelling on lot 415, block 18, Portland, \$8000; C. W. Harvey, two-story barn on lot 322, block 30, Third division, \$200.

While the June musical festival, conducted so ably by Professor Myers, was an artistic success of the first order, its financial success, contrary to a statement in a morning paper, was not so marked. Professor Myers did not expect to make any money, nor did the other hand the affair was a losing one.

The principals in the late June festival left today for the West. Miss Meesker going to fill a month's engagement in Pennsylvania and Miss Neilson returning to her newly-wedded husband in Chicago. Duluthians may have the pleasure of listening to Miss Meesker's sweet soprano again as she is probably to travel through this part of the country during the winter.

The Duluth, South Shore & Atlantic has leased the office in the Spaulding building occupied by the West Duluth Land company, who go in the Lyceum shortly. The St. Paul & Duluth will probably continue to occupy a part of the office in the Spaulding. Agent Larx, of the South Shore, desires to rent his present excellent quarters on which he holds a lease for some time.

The ladies' section of the Duluth Tuna Verein will present the society with a new flag tomorrow evening. The exercises will take place at Turner hall and besides the presentation speech and ceremonies will consist of recitations, vocal solos and choruses, also gymnastic exercises by the active members of the class. The flag is said to be an exquisite fine one and will be a credit to the society.

Efforts are being made to put up a building for the Yale school during the coming year in a new location, and the effort is being responded to in a most encouraging manner. It is very likely that the school will be put on a firm financial basis as well. The attendance during the past year has been large, and the school has won many warm friends who are unwilling to lose it now that it has been built up to a point where it is about self-sustaining.

The action of the Duluth railroads in refusing to make a reduction in rates from this city as the Western Passenger association is calling forth some strong expressions of condemnation. They were asked to make the same rate, which is one half of regular fare, by the Duluth Tuna Verein for the festival to be held in St. Paul during the latter part of June. The railroads refused to comply with the request. The festival at St. Paul calls together all the turning societies of the Northwestern states, and all the railroads except those running into Duluth have made the half-fare rate.

We buy notes and short time paper also purchase money mortgages. **Clark & Crossley, 402 Palladio building.**

Good three, five and ten year mortgage loans wanted. **T. O. HALL.**

PERSONAL.

Mrs. S. H. Gibson and son Miller go to Marquette tonight.

Mrs. McKinley leaves shortly for St. John's, New Brunswick.

Ex-Lieutenant Sam Field is in the city, the guest of Capt. Pressnell.

Miss Letta Cromwell will spend the summer in Grand Rapids, Mich.

F. G. Valien and family leave tonight for Center City, Minn., on a brief visit.

Mrs. Andrew Potter and daughters, Mrs. Cook and Miss Potter, are the guests of Mrs. Dr. Ringling.

Miss Jessie McCully leaves over the South Shore tonight for Boston, where she will spend the summer.

Simon Clark and four other delegates from Glen Stewart take tonight's South Shore train to attend the Buffalo convention.

Alfred Perry and Messrs. Dennis and Marko returned last evening from a two days fishing trip on Knife River. They report being very successful.

Dr. J. B. Weston has returned from Chester, Pa., where he has been visiting his parents prior to their departure for Europe.

General Manager Plough, of the Duluth road, came up this morning in his private car, accompanied by Mrs. White and her mother.

Mr. and Mrs. J. P. Morrow and Dr. and Mrs. Gidding will next Tuesday take Minnesota from company's steamer Marina at Two Harbors for a trip to Cleveland.

Mrs. C. R. Wagner is very seriously ill at her home on Beach street, with malaria fever. A consultation of physicians held last evening pronounced her case very dangerous.

CANNING CORNERED.

He Receives the Benefit of the Terrible Reinspection Fraud.
Charles Canning continued his testimony at St. Paul yesterday. In regard to doing what he said he knew nothing about it. He did not think old wheat was worth more to Buffalo millers than new and that it was local millers who paid more for it.

He admitted that a farmer might have two or three grades in the same field. He sometimes mixed grades, and even now, Moffet was mixing grades in his elevator. He bought by his own judgment and not by state rules. Mr. Canning said he had shipped some no grade wheat to the Duluth elevators, which he denied it and shipped it out as No. 2 northern.

"Now, the law provides that the wheat must go out at the same grade at which it came in at an elevator. Hence this wheat should have gone out as no grade. Why was that action taken in there?" asked the inspector.

"To prevent the elevator men from gaining anything by handling the wheat and improving it."

"Now, do you think this reinspection is right?"
Well, as an honest man, I don't know as it is right. I don't know as it is wrong. "Then will you pledge yourself never to take for reinspection on another case?" "I'll ship to some other market."

"Where will you ship?"
The witness named a number of places where he thought he could sell it by sample. He still thought that wheat should go out at the same grade it came in.

The committee has thus far spent \$25,500 and a number of bills have not come in. The experts will present their report Monday.

MARINE NOTES.

Capt. Con Flynn yesterday afternoon sold the steamer Barker to F. W. Smith and C. S. Morrow. They will run her in the excursion business. They will make regular trips to Spirit Lake. The office will be with the Smith-Fee company, foot of Fifth avenue west.

United States Court Commissioner Carey said that of late he has had vessel employees call on him every day to try to obtain wages due from a vessel from which they have been discharged. There seems to be no way of obtaining redress, as the amount involved is too small to make it pay to wait the session of the United States court.

The Mesaba arrived at Two Harbors yesterday morning on her maiden trip and cleared at 3 p. m. with 2182 tons of Mesabian ore. The Maton cleared with 1811 tons of Mesabian ore. The Manola is now in port.

Offers of two cents for small jags of wheat to be loaded today were made here, but could not be accepted for lack of bounties. An occasional charter of a straight load at one and three-quarter cents has been made during the past few days. The situation is quite good from the vessel man's standpoint and there is every indication that the lake freight business will be first-class later in the season. The Minnesota Iron company put on 150 men at the mines during the past week and within a few days as many more will be taken on and the shipments from the range prove greater than ever.

Sault Passages.
SAULT STE. MARIE, June 13.—[Special to The Herald.]—Up: E. M. Peck, 7 a. m.; Marib, Marina, 6:25; Miles, Algonquin, Saginaw Valley, 9:25; Havens, Havens, 11; Missola, 12:40; Amery, Jay Gould, 1:30; Alex. Nimick, Fayette Brown, 2:20; John M. Nicol, 3:25.
Down: Glencairn, Gaskill, Glenora, 1:30 a. m.; Nyanza, 2:30; City of Traverse, 3:25; Geo. W. Roby, 6:30; Lawrence, 7:35; Emily P. Wood, 10; Chas. W. Wetmore, 11:30. Clear and calm.

New Train to Chicago.
The Wisconsin Central is about to make a strong bid for Duluth-Chicago traffic by putting on a through train in addition to the train that is run on the time card. The present train is partly made up at Ashland, but the new train will be wholly made up at Duluth and Chicago. It will be put on next week, and as soon as the cars can be obtained it will be made a vestibule train throughout. The hours are not definitely decided on, but the train will probably arrive here about 7:30 a. m. and leave at 9:30 a. m., consuming about the same number of hours on the way as the present train. Hereafter no one can protest against the service between Ashland and Duluth. The arrangement will undoubtedly result in a great increase in traffic between Duluth and the iron towns of Wisconsin and Michigan.

The Library Board.
A special meeting of the public library board was held last evening at the library. The sole topic for discussion was the west end branch and the west end citizens' committee presented a list of magazines they wanted, as well as of furniture and other needed articles, detailing cost. It was estimated that the branch would cost about \$1400 the first year, and possibly not so much the second. No conclusion was reached and the whole matter was laid over to the regular July meeting.

Died.
McMILLAN.—In this city, on June 12, Isabella, wife of Charles McMILLAN, funeral from the family residence at 3 p. m. tomorrow.

Excursion.
The steamer Barker will make a trip around Mesabian point this (Saturday) evening, going inside the bay and out the Superior entry and returning outside the point and through the Duluth entry, making an enjoyable trip of about two hours. The boat will leave the St. Paul & Duluth slip at foot of First avenue west at 7:30 p. m. sharp. Fare for round trip only twenty-five cents.

Shapopee Mill Company Assigns.
Shapopee, Minn., June 13.—The Shapopee Mill company, composed of C. T. and J. C. Buchanan assigned yesterday. The estimated assets are \$50,000; liabilities, \$37,000.

THE MARKETS.

Wheat Prices are Lower; While Trading Here is Fair.

The market opened weak at 1/2 below last night's close. Prices closed at 1/2 more up to noon in sympathy with the weakness and decline in other western markets with fair trading. The later session though dull and inactive was firmer and the close was quite irregular.

Cash No. 1 hard closed at \$1.05; Cash No. 1 northern closed easy at \$1.00; Cash No. 2 northern closed at 96 1/2; June No. 1 hard dull, closed unchanged at \$1.04; June No. 1 northern dull, closed easy nominally at \$1.00. July No. 1 hard closed firm at \$1.05. July No. 1 northern opened easy 3/4 lower at \$1.01, declined to \$1.00 1/2 without further trading, firm up and closed at \$1.01. September wheat dull but firmer; both grades closed 1/2 higher at 81c for No. 1 hard and 81c for No. 1 northern.

Cars on track 32. Receipts—Wheat, 24,672 bu; corn, 1095 bu. Shipments—Wheat, 17,052 bu; oats, 10,000 bu.

Local Bank Clearings.
Today's local bank clearing were \$312,713.11.

THE FESTIVAL.

The closing night of the music festival was more successful than the first. The soloists were all in better voice, and were heartily applauded by the audience, while the choruses also sang better. The selections of Mr. Knorr gave a much better opportunity for showing his fine voice and the same can be said of Miss Meesker and Nelson and of Mr. Jensen. The latter was not troubled so much by his cold as on Thursday evening.

In Municipal Court.
Joseph Smith and Richard Jackson were held yesterday to the grand jury on a charge of burglary.

McKenzie, Matt Mattson, Thos. Foley, John A. O'Donnell, none were known as Happy Jack, and Herman Swade were sent up for drunkenness this morning.

FREEMAN ASSIGNS.

The La Crosse and Superior Miller Falls for a Goodly Sum.

La Crosse, Wis., June 13.—A. Freeman, miller, formerly of this city, who was involved in the recent failure of Chas. Hight & Co., of New York, arrived here yesterday on a special assignment of individual assets to T. A. Dyson, who gives a bond for \$10,000. The assets consist of real estate and certain securities totaling in value the bond given. Mr. Freeman states that so far as he can see the changed condition of affairs will not affect the Freeman Milling company lately organized at West Superior, and he anticipates construction will go forward without delay.

Valleen & Bergquist
Have a complete stock of shoes of every grade, size and style. Our prices are moderate and will be sure to suit you. Our stock is from some of the best manufacturing factories in the country and includes shoes from the cheapest to the finest grades.

Prices to suit the times. You will find them at Valleen & Bergquist's shoe store, 5 East Superior street. Our stock is complete in every respect and we can guarantee satisfaction.

Children Cry for Pitcher's Castoria.

Good for This Month Only.
After the first of July, no more town lots in Grand Rapids will be sold at one price.

We have the exclusive sale of the greater portion of the entire townsite and town lots in Grand Rapids, Minn. During the past few months, a number of Duluth parties, embracing such men as Major Baldwin, Senator Travis, A. W. H. A. Gearhart, T. H. Pressnell, S. E. Peacher, Col. A. B. Jones, W. W. Henry, C. A. Long, Geo. F. Long, W. W. Laundry, Joe Wolf and others, and there is not one of them—as they themselves will tell you—who cannot today take out \$2 dollars in cash for every one that they have invested there. The remainder of this month, we will give equally good chances to others, and those who buy on our judgment will certainly never regret it. **R. C. MERRY.**

Notice of Removal.
We have moved to 106 West Superior street, in Woodbridge building, part of store occupied by Duluth Music company. We are in all our old friends to call and see us.

ANDREW JACKSON, Jeweler.

Sunday Excursion.
The steamer Barker will make two trips to Spirit Lake on Sunday. These excursions have become very popular and are very enjoyable. She will leave St. Paul & Duluth slip at foot of First avenue west at 10 o'clock a. m. and 2:30 p. m. sharp and will touch at Northern Beach. Full fare round trip fifty cents; children half price.

Attention K. O. P.
All members of the Gate City Lodge No. 25, are requested to meet at Hayes block with other lodges at 2:30 p. m., Sunday, June 14th, to attend memorial services at the First Baptist church at 3 o'clock p. m. A full turnout is urged upon the members. By order of C. C.

Attest: D. J. SINCILAI, C. C.

MORTGAGE SALE—

Default having been made in the payment of the sum of twenty-four thousand two hundred and sixteen and 10/100 (\$24,216.10-100) dollars which is claimed to be due and is due at the date of this notice upon a certain purchase money mortgage, duly executed and delivered by Charles E. Shapopee to Ole Peterson, bearing date the 2nd day of May, A. D. 1888, and duly recorded in the office of the recorder of deeds in and for the county of St. Louis and state of Minnesota, on the 11th day of June, A. D. 1888, at 2 o'clock a. m., in book 2nd of mortgages, on page 37, and said mortgage was thereafter duly assigned by said Ole Peterson to James Kasson and R. C. Jefferson by an assignment bearing date the 1st day of June, A. D. 1888, and duly recorded in the office of the recorder of deeds in and for the county of St. Louis and state of Minnesota, on the 11th day of August, A. D. 1888, at eight o'clock a. m., and twenty dollars in book 22 of mortgages, on page 111, and no action or proceeding at law or otherwise having been instituted to recover the debt secured by said mortgage, or any part thereof.

Now, therefore, notice is hereby given, that by virtue of a power of sale contained in said mortgage, and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed, and the premises described in and covered by said mortgage, viz: The undivided one-half of the southeast quarter of the northeast quarter of section number twenty-two, township thirty-four north and range number ten west in St. Louis county and state of Minnesota, containing about 160 acres of land, will be sold at public auction to the highest bidder for cash to pay said debt and interest, and the cost of advertising and other expenses, at 10 o'clock a. m., of that day, subject to redemption at any time within one year from the day of sale, as provided by law.

Dated June 11th, A. D. 1891.

CLOSE AND CLAUSEN.

They Talk Before the Wheat Investigating Committee.

Everything Has Been All Right Under Clausen's Administration.

Close Tells of Bin Burnt Wheat Dumped in the Bay in the Season of 1898.

In the wheat investigation at St. Paul yesterday, Mr. W. Preston, deputy grain inspector from 1885 to 1889, was the first witness examined here. He had no knowledge of any crime being committed without inspection, but had heard it mentioned that such was the case. He went on to tell what he had heard from "some of the other boys." Mr. Preston attended to the out shipments, but never knew of a kernel being sent out without inspection. He did not think that wheat could be transported from the city to a boat without the inspector knowing it, but before that it would be possible to make the discovery when the inspectors of dirty wheat might be emptied into the boat. It was not the intention of the inspectors to allow of grades of dirty wheat to go out, and the inspectors, so far as he knew, were vigilant in the discharge of their duties. There was no collusion, so far as he knew, between inspectors and elevator men, but there was some trouble experienced in getting wheat properly cleaned, the elevator men desiring to get rid of the wheat as it was put in the bins. The inspectors secured a check on this kind of business. The wheat shipped out without inspection was, he thought, what was on hand when the state inspection began in 1885.

Mr. Preston testified that he knew nothing about any screenings being shipped nor did he know of any cars being loaded with wheat in the elevators at night. On cross-examination by Erwin, he said it was the duty of the state inspectors to look after the spots from the bins when a vessel was loaded. He remembered once when the elevators were all full and had no spare bins, wheat could not be cleaned up. In such cases if the wheat was not too dirty and the boats were in waiting, enough wheat was graded out to give the elevator men room to put in clean grain. Erwin—Would it require a great force of characters on the part of the inspector to order the elevator to shut down and not send out any wheat until properly cleaned?

Mr. Preston—No, I cannot say that it would. If the inspector considered the wheat too dirty to send out there was but one thing to do—order it to be cleaned up.

Mr. Erwin then tried to show by the witness that political or some other influences had a tendency to "flood" the inspection department, but Mr. Preston said he had no knowledge of any such condition of affairs. The board of directors of Duluth had inspected wheat in elevators B and E in 1885, and some had been left which was inspected by the board of directors the next spring on orders from the state inspector. Mr. Erwin next attempted to show that the grain in the bins had been mixed with inspected wheat, of better quality and shipped out secretly. Mr. Preston said that he understood that the board of directors had given the elevator men permission to ship out the damaged wheat, but so far as mixing it up with other grades was concerned, he had heard that this was done, but never saw anything of the kind. The board of directors was the first to inspect grain on which the elevator men claimed to have suffered a loss of \$90,000. Mr. Erwin insisted that this permission was given by the board of directors to ship out the damaged wheat, was nothing less than a leading violation of the law of inspection which was in effect when the grain was authorized to be shipped out.

"Why did you leave the service, Mr. Preston?" inquired Erwin.

"I do not know, but think that Clausen or Ripley can answer the question. I got an order about the 1st of August, 1889, that the force was to be reduced, and my name had been listed among the departures. Within a month or two three new inspectors were appointed."

"Were you sworn to secrecy about those shipments of the damaged grain?"

"No, but it was tacitly understood that it was not to be made public because it would injure the elevators if it became known that damaged grain had been taken in as a good article," Mr. Preston was evidently not desirous of enlarging much on his dismissal from the inspection service, although he tried to make it appear that the sole reason for his discharge was based on the fact that Preston had endeavored to hold the elevators down to the grade. In answer to the lawyer's question, "Did you insist on a strict observance of the law?" a replied, "I had nothing to do with the law."

Called again to the stand, Mr. Preston was called upon to answer several philosophical questions propounded by Attorney Erwin, the burden of which was to show that an enlarged experience and force of character were the necessary requisites in order to be a successful wheat inspector. He was also asked who, in his opinion, was the best qualified inspector appointed since Clausen had had charge of the inspection. Mr. Clausen was called upon to produce the letter which retired Preston, and the chief inspector complied with the request most cheerfully. It seems that Preston was continually getting into trouble with people, although most of his battles were fought before Clausen took charge of the department. Mr. Clausen, with lawyer-like promptness took hold of the witness and elicited the fact that all of the alleged shipping of inspected wheat took place before he (Clausen) took charge of affairs. Preston, in answer to Clausen's cross-fire, said that Mr. Erwin was trying to show this forenoon that good wheat was mixed up with damaged grain and that the inspection department knew of it. He did not understand it, for, as a matter of fact, he knew nothing about it.

Geo. Claus, a night watchman employed at elevators E and F at Duluth in 1889, testified that he had known of wheat being shipped out secretly at night, but he did not know whether the wheat had been inspected before shipment. From his testimony it was learned that there was a large number of "sweepers" that made \$2 and \$3 a day in sweeping out the unloaded cars. In reply to questions, Claus estimated amount of bin burnt wheat in '98 at about 40,000 bushels, which was dumped in the bay.

Do You Love Money? Professor Grieser will explain how to get a thorough medical education and to be able to join the higher classes of any of the conservatories in Germany or the international conservatory at New York by Schwarzen.

Best methods are used. Terms lower than elsewhere. Classes are formed now. Come at once. Office 200 East street block.

Children Cry for Pitcher's Castoria.

WILLIS A. GORMAN CORPS.

The State Department President Makes a Decision of Local Interest.

Mrs. Mary E. Leavens, of Fairbault, president of the state department, Women's Relief corps, has issued an order which appeared in yesterday's Minneapolis Tribune. One paragraph of special interest in Duluth reads as follows:

"In the matter of the appeal made to me as department president from Willis A. Gorman corps, No. 45, I find, as matter of right and parliamentary practice, that prima facie, upon the evidence before the department president and before the convention, the president, past president and delegates of said corps were entitled to sit as such in said department convention, and that it was error to deny them the privilege thereof. I therefore sustain the said appeal. The reasons of this decision and the findings of facts are this day filed at headquarters."

It will be remembered that there was considerable feeling manifested at the St. Paul state convention being presided over by the president then presiding ruled out the delegates from Duluth as irregularly elected. The action of the new president elected at that time reverses the former ruling on appeal, and the Duluth delegates are winners at last. It is not, however, entirely certain that the delegates will produce entire harmony in the local corps, as several members held to the other opinion. It is hoped, however, that the action will be subservient to the general good, and that the corps will flourish in future as never before.

DEAD MAN FOUND.

The Body of an Explorer Found in the Woods; Was He From Duluth?

On one of the portages between lakes on the traveled canal route from Ely to the Canadian boundary at Grand Lake lies the body of a man.

It was found by Ben Simmons, the well known explorer, who was on his way back to Duluth after a trip on the eastern ranges and he brought the news to town yesterday.

The man has been dead nearly four weeks, according to Simmons' belief, and was past identification. Simmons did not search his clothing for marks that would tell who he was, where he was from but believed him to have been an explorer from Duluth.

He had been evidently died of starvation. Lying beside the body was a small pack, containing some clothing and food, but the food was all eaten. He was apparently a man in the prime of life and appeared to be on his way to Ely. No steps have yet been taken by the authorities to recover the body.

Will Exchange.

It has been learned that George T. Hughes resigned his position three weeks ago to become deputy postmaster, a position held in Duluth, Minn., for a period of two years and in Bismarck, N. D., for two and one-half years. Mr. Hughes, the deputy postmaster, has resigned his position to take effect July 1st and will succeed Mr. Hughes as clerk of the board of public works. Both gentlemen are well and favorably known and the public will be glad to learn that their future services are not to be lost to Duluth. Mr. Hughes has served in the present capacity for three years and Mr. Hughes six years and both have brought their departments up to a high standard.

Real Estate.

Transfers filed yesterday and furnished by the county of the register.

CITY BRIEFS.

Mortgages bought. Collateral and short time loans wanted. **CLARK & PRINCE.**

A marriage license has been issued to James Fitzgerald and Annie Higgins. The first ladies have fitted up a gymnasium in engine house No. 1 and are drilling every day.

The medals presented by Alderman Long to Miss Alice Field and David H. Stocking, members of the graduating class, are now on exhibition at Montague's store.

Yesterday's Herald stated that in the game of baseball at the west end Sunday the Whiting's won by a score of 4 to 3. This is incorrect as the Imperials won, by the above score.

The Ladies union of the congregational church will meet in the church parlors at 2:30 p. m. Wednesday. This will be the last meeting for the summer and a large attendance is expected.

Building permits have been issued as follows: August Johnson, frame dwelling on lot 294, block 71, Second division, \$1000; R. P. Dows, frame dwelling on lot 10, block 65, Easton, \$1000; and J. W. P. Dows, frame dwelling on lot 10, block 65, Easton, \$1000.

Abelsted, an actor and fine elocutionist of Christiania theater, Norway, will give an entertainment at Normanna hall, Thursday evening. He will be assisted by Professor Tonnung and Mr. Flanson, with music.

Postmaster Howard has succeeded in getting an extra clerk from the government. The magnificent increase of over \$13,000 in the receipts of the past year clearly entitles him to still another clerk, and it is to be hoped that he will get one before many weeks.

The commissioners appointed to condemn property along the line of the new road to Lakeside will meet at the city hall, Lakeside, tomorrow and Saturday forenoon, from 8 to 10 o'clock. Property holders and others interested are requested to be present.

The 12-year-old son of Mr. and Mrs. John H. Boyle, living on Cascade square, died yesterday and will be buried this afternoon. The boy, who was at Shattuck school, was a bright little fellow and his death is mourned by many friends, who sympathize with the parents.

The closing meeting of the Chautauqua circle for the season was held at Mrs. Fletcher's, corner of Fourth and Second streets last evening. After the very interesting literary program, Mrs. Fletcher surprised the circle with dainty refreshments, and then the commencement exercises of the year were over.

It was R. P. Dows who was presented with a set of Tennyson's works at the closing exercises of the High school and not R. P. Dows as announced in The Herald yesterday. The present was given to express the appreciation of the class of Professor Dows's work as pianist and musical director.

Mr. John Lloyd, possessing a superb tenor voice, has just been engaged by the management of the Boston Symphony orchestra and will give a high soprano vocal and marvelous execution, is another addition. There is a strong probability of this company with eight great artists, appearing in Duluth the coming season.

We buy notes and short time paper also purchase money mortgages. Clark & Prince, 402 Paladino building.

Good three, five and ten year mortgage loans wanted. T. O. HALL.

PERSONAL.

Messrs. Buchanan and Hudson go to Chicago this afternoon.

Capt. Pressnell went to Ashland this afternoon on land office business.

John E. Kutter leaves tonight for a two month's visit at his old home in Clinton, Mass.

Mayor Davis is in St. Paul and will probably leave for Tacoma today or tomorrow.

C. H. Lucken, formerly county treasurer of Polk county, is visiting in the city for a few days.

James York, who is arranging for the location of a steel plant at Ironston, is in town again.

W. H. Fisher has returned from Baltimore, where he went on Duluth & Winnetka business.

Capt. Con Flynn, who ran the Barker for the past three years, is thinking of going to the Pacific coast.

Porte W. Hewins, of Boston, whose investment company recently purchased heavily on Fourth street, is in town.

Mining Engineer C. F. Howe left this afternoon for a long trip on the East Verillion range, expecting to go to the Canadian boundary line.

Miss Maxwell, daughter of Dr. C. S. Maxwell, has returned for the summer vacation from Butler university, Indiana, where she has been at school.

Mrs. A. Morrison, of Muskego, is in the city for a short time. Mrs. Morrison makes a specialty of advertisements in rhyme, which will appear in The Herald.

Sergt. Bronson, who is to succeed Sergt. Bauer in the Duluth signal office, is expected here from Cheltenham, N. C., June 22. Sergt. Bauer will not leave for Mt. Washington, N. H., until the end of the month.

R. H. Newell and family left today for Portland, Ore., and via the Great Northern, to locate. Mr. Newell is heavily interested in Duluth and dislikes very much to leave, but is compelled to on account of ill health.

In Municipal Court.

M. J. Leslie and James Munroe went to jail to await examination on a charge of drunkenness. John Haley was given ten days.

Lottie Flattery paid \$12 for residing in a house of ill-fame.

Michael Horne was committed for disorderly conduct.

Peter Murtin, arrested for hindering a pondmaster in the discharge of his duties, was admitted to bail pending an adjournment of examination.

John Timlin, arrested for cruelty to an animal, was also admitted to bail.

John Haley was committed to await an examination for petit larceny.

Local Bank Clearings.

Today's local bank clearing was \$337,177.27.

Solid Silverware.

A magnificent assortment just arrived at Jackson's, 106 West Superior street.

Children Cry for Pitcher's Castoria.

St. Thomas School.

The examination exercises of the school of St. Thomas school, under the Benedictine Sisters, closed yesterday, and a grand showing was made. This afternoon and tomorrow they have on exhibition at the hall oil, crayon and pastel paintings and fancy needle work made by the scholars the past year. The Herald man chanced to "drop in" and was kindly shown around the hall. It would be too great a task to give a detail of every article there, but let it suffice to say that there are few schools, if any, in the Northwest that can make such a display of every article including the opera, "The Miracle of Roses," will be given by the school tomorrow night.

The St. Paul & Duluth has recently purchased a considerable quantity of rails to be used in repairing its main line.

ON A REEF.

The Japan Aground Near Drummonds Island, Near Duluth.

Capt. Stewart, of the John M. Nicol, which arrived in port yesterday, says that he passed the Japan early Saturday morning and that the latter boat was on the reef near Drummonds island a few miles east of Duluth. The Nicol had been obliged to wait a few hours just a short distance out in the lake before trying to get into the Sault river on account of the smoky weather. As morning approached he saw the Japan and concluded that she must be on. A little later he picked up the mate of the Japan, who was rowing in a small boat in order to reach Duluth and get aid. The mate did not know whether there was any water in her hold. Capt. Stewart took the mate to the Sault and before he came away the mate had secured a lighter to go to the assistance of the Japan. The Japan was on her way up from Buffalo with passengers and merchandise. On her way down she had had luck in the river, being put aground by the swash from a passing steamer. Capt. Robert Smith, her master, is known as one of the best navigators on the lakes. In all the years he has sailed the Japan he has had no trouble until now.

The Japan arrived here shortly after noon today. It was learned that her cargo was not damaged. The Japan was on her way up from Buffalo with passengers and merchandise. THE CITY COUNCIL.

Lights and Fire Hall for Park Point.

Alderman Ash Objects.

It is said that "even in or Asies loiterer wanted fires," and the poet's words proved true last night when Alderman Ash illuminated the council proceedings by his reasons for opposing the purchase of a corner lot for a fire hall beyond the city limits.

When the question of paying \$1500 for lot over the canal came up some time ago Mr. Ash objected that just as good a lot could be secured for \$800. Finally the committee advertised and received an offer of a lot from Morris Thomas for \$800. But when the committee was ready to accept the bid Mr. Thomas had sold the lot. Then lot 159 on Minnesota avenue at \$1000 was selected. Mr. Ash opposed the purchase, but all other aldermen voted for it. Nine street lamps were also ordered for Park point.

There were several communications from the board of works announcing letting of contracts, including that for the improvement of bench street. The following estimates for work of various contractors were made: Forester Bros., Fourth street, \$1000; J. H. Lang, Twenty-fifth avenue west, \$3325; J. Buyer, sidewalk on Seventh avenue west, \$1917; final estimate for L. Meinig & Co. for \$670 and estimates on sewer contracts as follows: Joseph Wolf, \$1193; Forester Bros., \$392.

A communication was received from the Bricklayers union protesting against the employment of non-union workmen on public work. S. Merchant offered a further communication urging the name of Division avenue for Lake avenue, and the name of Lake avenue for Superior street beyond Eighth avenue east. The Motor line through Superintendent Wardwell asked for a monetary pension. Alderman Birch streets eastward from Mountain avenue, with a wooden bridge over Tischer's creek, was let to Walter C. Doherty at \$35721. The sewer ordered built in Lake avenue, from Fifth street to Piedmont avenue; also a sidewalk on the north side of Superior street, from Second to Eighth avenue east, as well as a sanitary sewer in First street, from Missouri to Montana avenues. Absentees—Aldermen Dingwall, Lemieux and Nelson. The council will meet Friday night to discuss ordinances.

District Court.

The jury, this morning, found John Hendrickson, the Tower snookkeeper, guilty of assault in the second degree. It seems that he threw a man out of his saloon for being boisterous and later hit him on the head with a bottle. Judge Stevens this afternoon ordered him to pay a fine of \$250 or go to jail for six months. He paid the fine. James Nolan was given sixty days in the county jail for petit larceny. In the suit of A. C. Morrison vs. John Keogh the jury this afternoon brought in a verdict for the plaintiff of \$572.16.

In Judge Ensign's court Nos. 60, 61 and 62 were continued. The case of the Courtland wagon company vs. the sheriff is still on trial. Tansig vs. Chigge & Prindle last evening resulted in a verdict of \$277.22 for the plaintiff.

The Chapin-Wells Hardware company brings suit against J. C. Morrison to recover \$614.62 for goods sold. The American Loan and Trust company is garnished in the suit.

St. Thomas School.

The examination exercises of the school of St. Thomas school, under the Benedictine Sisters, closed yesterday, and a grand showing was made. This afternoon and tomorrow they have on exhibition at the hall oil, crayon and pastel paintings and fancy needle work made by the scholars the past year. The Herald man chanced to "drop in" and was kindly shown around the hall. It would be too great a task to give a detail of every article there, but let it suffice to say that there are few schools, if any, in the Northwest that can make such a display of every article including the opera, "The Miracle of Roses," will be given by the school tomorrow night.

The St. Paul & Duluth has recently purchased a considerable quantity of rails to be used in repairing its main line.

This afternoon and tomorrow they have on exhibition at the hall oil, crayon and pastel paintings and fancy needle work made by the scholars the past year. The Herald man chanced to "drop in" and was kindly shown around the hall. It would be too great a task to give a detail of every article there, but let it suffice to say that there are few schools, if any, in the Northwest that can make such a display of every article including the opera, "The Miracle of Roses," will be given by the school tomorrow night.

The St. Paul & Duluth has recently purchased a considerable quantity of rails to be used in repairing its main line.

St. Thomas School.

The examination exercises of the school of St. Thomas school, under the Benedictine Sisters, closed yesterday, and a grand showing was made. This afternoon and tomorrow they have on exhibition at the hall oil, crayon and pastel paintings and fancy needle work made by the scholars the past year. The Herald man chanced to "drop in" and was kindly shown around the hall. It would be too great a task to give a detail of every article there, but let it suffice to say that there are few schools, if any, in the Northwest that can make such a display of every article including the opera, "The Miracle of Roses," will be given by the school tomorrow night.

The St. Paul & Duluth has recently purchased a considerable quantity of rails to be used in repairing its main line.

COMPANY K.

Chances For a Poor Representation at the Coming Camp.

Capt. DeWitt this morning received from Adjutant General Mullon the transportation for Company K, which is to leave tomorrow night over the Northwestern for the annual ten days' camp at Lake City.

The captain is almost discouraged at the outlook for his regiment at this year's camp and so far has been able to count up but sixteen men who will be able to go, out of a total membership of 100. His mysterious disappearance of some of his men is a mystery. This unfortunate state of affairs, which is not merely unfortunate for Company K, but for the city, is due to the action of many employers of men who are in the organization, who are unwilling to put them selves out in the least to let the militia men off. Most of these employers could thus give their men a vacation with no loss either to themselves or their business. It is a pity that they are therefore to be regretted greatly.

Company K gets little enough recognition of its services, both rendered and willing to be given in future, and the least that can be done is to insure a full roster at these annual camps. Not only does a large membership at the ten days of instruction benefit the company, but makes it more powerful and a better security in time of need. It is, also, a better showing for the city.
